28th of June 2017 is the day when the Peace Blueprint was publicly announced.

"The Keshe Foundation calls upon all members of all groups and individuals to attend and take their position in the cycle of peace movement, which has been taken shape in the past years by the actions and science which has been given as a gift by all members of the Foundation to humanity for the advancement of science and through it, for the creation of the right environment for peace on this planet.

Please call on all those, whom you know and have access to internet or social media and governments and all groups of society to listen and join the 178th Knowledge Seekers Workshop to be held on Thursday 29th of Jun 2017 and to be known as the 'Blueprint for peace for humanity'.

The Keshe Foundation invites all members of The Universal Council, The Earth Council and The Core team to be present in this presentation.

The time and the place for the world peace is upon humanity and is the duty of every man on Earth to take the responsibility of making sure that this cycle of peace movement through application of new technology can guarantee the peace on earth that brings about to make all nations as one nation and all to become part of ever lasting peace on this blue planet.

My Fellow men, I have done what has been possible to share the knowledge of Universe and creation of peace amongst the race of the Man as has been destined for the race of the Man and on equal measures in the past years, now I call on all your souls to join the soul of the creator to initiate and encourage the leaders of the Man to become men of peace and SIGN the humanity to the lasting peace on the Earth and start the beginning of and the Signing of humanity to final acts needed to bring about ever lasting peace on this Earth of the Man."

Mehran Tavakoli Keshe
World citizen and founder of the Keshe Foundation

For the full recording of the celebration please follow the link below:
https://youtu.be/XbBHwT8AtSc

Following the announcement, nuclear engineer Mehran T. Keshe has held a marathon of Peace Public Teachings – Knowledge Seekers Workshops, published on the Keshe Foundation Youtube Channel, in the playlist Blueprint for Peace for Humanity which concluded with humanity signing itself to peace as of 2nd of August 2017.
https://www.youtube.com/watch?v=N6etrtaKnF4&list=PLpCKWzA-bp9v2VpiLqf5v4YODsSkcaBl1

The one-year anniversary from the signing all nations to peace has been held on 2nd of August 2018, hosted by the Universal Council during the 235th Knowledge Seekers Workshop.

"It's not easy, it's been a rough ride but it's worth it and we sit and look at many changes especially since last year and many developments that the soul of man collectively has decided on the path of peace. If you go back last year when we were having these thoughts of setting up the Universal Council and the World Peace Treaty and 1Nation1Planet1Race we had heavy burdens loaded on humanity"

1 Year Anniversary 2 august 2017 – 2 august 2018 **Peace Blueprint: for humanity**	**1er Anniversaire 2 août 2017 - 2 août 2018** **Blueprint pour la Paix : pour l'humanité**

28th of June 2017 is the day when the Peace Blueprint was publicly announced.	Le 28 juin 2017 est le jour où le Blueprint pour la Paix a été annoncé publiquement.
“The Keshe Foundation calls upon all members of all groups and individuals to attend and take their position in the cycle of peace movement, which has been taken shape in the past years by the actions and science which has been given as a gift by all members of the Foundation to humanity for the advancement of science and through it, for the creation of the right environment for peace on this planet. Please call on all those, whom you know and have access to internet or social media and governments and all groups of society to listen and join the 178th Knowledge Seekers Workshop to be held on Thursday 29th of Jun 2017 and to be known as the 'Blueprint for peace for humanity'. The Keshe Foundation invites all members of The Universal Council, The Earth Council and The Core team to be present in this presentation.	“La Fondation Keshe appelle les membres des différents groupes et les personnes, à titre individuel, à participer et à prendre position dans le cycle du mouvement pour la paix, qui a émergé ces dernières années, à travers les actions, et la science donnée en cadeau par les membres de la Fondation à l'humanité, pour faire avancer la science et créer un environnement propice à la paix sur cette planète. Invitez tous ceux que vous connaissez, qui ont Internet ou accès aux médias sociaux, les gouvernements et les acteurs de la société, à écouter et à participer au 178ème Knowledge Seekers Workshop, le jeudi 29 juin 2017, qui est intitulé ‘’ Blueprint pour la Paix pour l’Humanité ’’. La Fondation Keshe invite tous les membres de l’Universal Council, le Earth Council et la Core Team à assister à cette présentation.
The time and the place for the world peace is upon humanity and is the duty of every man on Earth to take the responsibility of making sure that this cycle of peace movement through application of new technology can guarantee the peace on earth that brings about to make all nations as one nation and all to become part of ever lasting peace on this blue planet.	Le temps et le lieu de la paix mondiale incombent à l'humanité. Il est du devoir de chaque homme sur Terre, de prendre la responsabilité de s'assurer que ce cycle de mouvement pour la paix, par l'application des nouvelles technologies, assure la paix sur terre, pour faire de toutes les nations, une seule et même nation et qu'elles deviennent part d'une paix durable sur cette planète bleue.
My Fellow men, I have done what has been possible to share the knowledge of Universe and creation of peace amongst the race of the Man as has been destined for the race of the Man and on equal measures in the past years, now I call on all your souls to join the soul of the creator to initiate and encourage the leaders of the Man to	Mes amis, j'ai fait tout mon possible ces dernières années, et de manière équitable, pour partager la connaissance de l'Univers et créer la paix au sein de l’Humanité, tel que prévu pour la race Humaine. J'appelle maintenant vos âmes à rejoindre l'Âme du Créateur, pour initier et encourager les dirigeants de l'Homme, à devenir

become men of peace and SIGN the humanity to the lasting peace on the Earth and start the beginning of and the Signing of humanity to final acts needed to bring about ever lasting peace on this Earth of the Man.	des hommes de paix et SIGNER une paix durable pour l'humanité sur Terre, afin de démarrer et finaliser la signature des actes, nécessaires à l'instauration d'une paix définitive sur cette Terre de l'Homme.
Mehran Tavakoli Keshe World citizen and founder of the Keshe Foundation”	Mehran Tavakoli Keshe Citoyen du Monde et fondateur de la Keshe Fondation.
Following the announcement, nuclear engineer Mehran T. Keshe has held a marathon of Peace Public Teachings – Knowledge Seekers Workshops, published on the Keshe Foundation Youtube Channel, in the playlist Blueprint for Peace for Humanity. (https://www.youtube.com/watch?v=N6etrtaKnF4&list=PLpCKWzA-bp9v2VpiLqf5v4YODsSkcaBl1) which concluded with humanity signing itself to peace as of 2nd of August 2017.	Suite à cette annonce, l'ingénieur nucléaire Mehran T. Keshe a organisé un marathon d'Enseignements Publics pour la Paix - Knowledge Seekers Workshops, publiés sur la chaîne Youtube de la Fondation Keshe, dans la playlist ‘’ Blueprint for Peace for Humanity ’’. (https://www.youtube.com/watch?v=N6etrtaKnF4&list=PLpCKWzA-bp9v2VpiLqf5v4YODsSkcaBl1) Marathon qui s'est achevé pour l'humanité, par la signature de l'accord de paix le 2 Août 2017.
The one-year anniversary from the signing all nations to peace has been held on 2nd of August 2018, hosted by the Universal Council during the 235th Knowledge Seekers Workshop.	Le 2 août 2018, l'Universal Council a célébré le premier anniversaire de la signature du traité de paix par toutes les nations, lors du 235ème Knowledge Seekers Workshop
“It's not easy, it's been a rough ride but it's worth it and we sit and look at many changes especially since last year and many developments that the soul of man collectively has decided on the path of peace. If you go back last year when we were having these thoughts of setting up the Universal Council and the World Peace Treaty and 1Nation1Planet1Race we had heavy burdens loaded on humanity”	‘’ Ce n'est pas facile, la route a été rude, mais cela en vaut la peine. Nous nous posons et voyons les nombreux changements, surtout depuis l'année dernière, et les avancées réalisées collectivement par l'âme de l'homme sur le chemin de la paix. L'année dernière, nous avons eu ces réflexions sur la création de l'Universal Council, le Traité de Paix Mondiale et 1Nation1Planet1Race. Et nous avions de lourdes responsabilités envers l'humanité ‘’.

KF PLASMA TIMES

It’s amazing how everything is evolving outside and inside of us, since the Signature of Peace Treaty last year.

All the knowledge seekers in diverse areas, have advanced of one, or of several steps towards the opening of global and globalizing consciousness.

We take confidence of our responsibilities, understanding that the evolution is carried out individually, and then to fuse it with other ones, which are our mirrors.

Up to the moment we have advanced as broken mirrors, thinking that we were the best and the strongest in an absurd competition, today we understand that we need to fix that broken mirror to transform it into ONE and to shine all-together.

Often, we meet rejections and be criticized and that pushes us to go beyond the radar screen, breath the pure plasma to raise ourselves again, to make it circulate in us and in our rounding to shine ever more, and to illuminate our environment with our example and our interior peace, increasingly requested by so many changes of positions.

Any innovative idea, which escapes from the manipulative agenda, seems to be initially ridiculous, passing then as dangerous, turning finally in evident.

With 300.000.000 students of the Keshe Foundation we are entering in this last phase, waking up many friends, especially in the countries with more needs and that are accepting this force of the liberating plasma science, the best way to give the example and the evident vision, allowing so many people to be inspired.

The biggest force, is the power of love and the humility of those beings who transmit it unconditionally. It’s wonderful to assist in this planetary awakening, taking awareness of our enormous power, that guides us to join our Universal friends.

It is encouraging to notice that the number of people that know about Keshe Foundation technology has grown in the Bengali speaking communities and many communities across the planet. It is equally rewarding to see that this built through the use of health-related application as more than 4000 people have benefitted from it near the area I located in Bangladesh. This effect is not restricted to the local area of operation because some people have taken some these solutions to the villages many kilometers away. One of the interesting effects is that a few of the people are attending our weekly Bengali public teaching after seeing the KF technology benefits directly. A number of these people are from the younger generation, and they are using Pain Pens in playing fields, for example. We are looking forward to expanding the awareness through education, more use of the technology, and the students spreading KF knowledge not only through the word but also their action. We are beginning to see the ethos of Keshe Foundation taking root as the process evolves.

It was a great pleasure to take part in the 1st anniversary of the signing of the World Peace Treaty (WPT). Last year, a month-long Blueprint for Peace for Humanity ended up with all the World languages’ representatives signing the WPT. The Polish-speaking community sent a countless number of invitations to the Polish president and the prime minister, without getting any replies. What was ignored by people at power, was delivered by the Soul of the Polish-speaking community. Since then many international conflicts have been resolved or prevented - such as the one in Togo. Confirmation of our wish for Peace found its reflection in the Physicality and it’s for us to realize that it was us who collectively made this happen. Politicians around the World have started admitting that war is too expensive.

China, North Korea and USA are finding their ways to work together despite their differences. Now the time has come for the entire World to realize that we are all made in the image of the Creator. There are no better and worst, or higher and lower, we are alike and the key to our peaceful coexistence lies in acceptance through education. Instead of focusing on the past, we should look at the future which needs to be just for every being on this Planet. At the same time, we should always remember that peace inside means peace outside. How can we thrive in the emotion of Peace if even at home we battle? The journey to Peace starts within us through the understanding of our own Soul. The thrill and the joy of signing the WPT are still present in our Souls. I can remember, like if it was yesterday, the feeling of unity with the Souls of other languages. A common field strength which spreads across the Planet has united us into One Nation, One Planet, One Race.

It was a great pleasure to take part in the 1st anniversary of the signing of the World Peace Treaty (WPT). Last year, a month-long Blueprint for Peace for Humanity ended up with all the World languages' representatives signing the WPT. The Polish-speaking community sent a countless number of invitations to the Polish president and the prime minister, without getting any replies. What was ignored by people at power, was delivered by the Soul of the Polish-speaking community. Since then many international conflicts have been resolved or prevented - such as the one in Togo. Confirmation of our wish for Peace found its reflection in the Physicality and it's for us to realize that it was us who **collectively made this happen**. Politicians around the World have started admitting that war is too expensive. China, North Korea and USA are finding their ways to work together despite their differences. Now the time has come for the entire World to realize that we are all made in the image of the Creator. There are no better and worst, or higher and lower, we are alike and the key to our peaceful coexistence lies in acceptance through education. Instead of focusing on the past, we	Ce fut un grand plaisir de participer au 1er anniversaire de la signature du Traité de Paix Mondiale (WPT). L'an dernier, le Blueprint pour la Paix de l'Humanité, a abouti à la signature du WPT par les représentants de toutes les langues du Monde. La communauté Polonaise a envoyé un nombre incalculable d'invitations au président et au premier ministre Polonais, sans obtenir de réponse. Ce qui a été occulté par les gens au pouvoir, a été livré par l'Âme de la communauté Polonaise. Depuis, beaucoup de conflits internationaux ont été résolus ou évités, comme celui du Togo. La confirmation de notre souhait de Paix a trouvé son reflet dans la physicalité. À nous de réaliser, que c'est nous qui avons **collectivement, fait en sorte que cela se produise**. Les politiciens du Monde commencent à admettre que la guerre est trop coûteuse. La Chine, la Corée du Nord et les États-Unis trouvent le moyen de travailler ensemble, malgré leurs différences. Le temps est venu, pour le monde entier, de réaliser que nous sommes tous faits à l'image du Créateur. Il n'y a pas de meilleur et de pire, ni de plus haut et de plus bas, nous sommes pareils. La clé

It is Amazing to witness how we progress with our understanding of this new way of thinking. Everything making more sense as the time goes by. Like Mr. Keshe always said, *"The knowledge I am passing to you it like a puzzle and one day you will be able to put all the pieces together and all will make sense".*

Mr. Keshe is teaching directly to our Souls persistently over the past years and we are slowly gradually maturing and integrating a new way be. He has been given us consistent support over the past years to creating as we speak the *"Condition"* to a new World That has one common wish, ours wish: Peace and Balance. As Mr. Keshe always told us, when the time is right, as the Universe is all about precision timing, will be only one outcome: The Elevation of the all Souls, happening effortless with no thinking, with the strong common feeling of connection between all of us. That moment is happening now.

Stefania

I can remember we were sitting for hours and hours preparing the presentation for the first world peace anniversary. We started preparing this presentation weeks ago, then there were only days and suddenly only some hours left. Finally, we ran out of time. So, we had only one possibility: finishing the presentation just in time, you know sleeping is overvalued! ;-) And indeed, after an approximately ten-hour shift (=zoom meeting) we handed in our presentation and it was amazing!

We were sticking to this last meeting nearly all the time, some were coming into the meeting, others were going out of the meeting, in the meantime the technically talented people were putting the content in and formatting the presentation, while others were handing their content in.

Then the organizationally talented people were structuring and restructuring the whole presentation. After this the creative people came up with new ideas what else should be mentioned in the presentation. The visually oriented people made sure the presentation was easily understood and was optically well received. And the legal experts checked if all the pictures had no copyrights. At the end the grammar and spelling experts were doing their jobs.

After describing the last preparation meeting for the first world peace anniversary what do I want to share? I want to share this spirit, this soul of all the Universal Council members who were working together for one aim: making a joyful world peace anniversary happen.

We were a group of all different cultures, from different parts of the world, from different time zones, from different backgrounds working together to reach our aim. And although it was exhausting and we all were tired we really enjoyed working together and enjoyed creating the presentation for the first world peace anniversary because we felt as being one, one soul, one Universal Council!

It is Amazing to witness how we progress with our understanding of this new way of thinking. Everything making more sense as the time goes by. Like Mr. Keshe always said, *"The knowledge I am passing to you it like a puzzle and one day you will be able to put all the pieces together and all will make sense".*

Mr. Keshe is teaching directly to our Souls persistently over the past years and we are slowly gradually maturing and integrating a new way be. He has been given us consistent support over the past years to creating as we speak the *"Condition"* to a new World That has one common wish, ours wish: Peace and Balance. As Mr. Keshe always told us, when the time is right, as the Universe is all about precision timing, will be only one outcome: The Elevation of the all Souls, happening effortless with no thinking, with the strong common feeling of connection between all of us. That moment is happening now.

 KF PLASMA TIMES The one-year celebration of the signing of all countries into Peace was a beautiful reminder of what is to come, and a lot of positive changes has already taken place in the world. The peace between South and North Korea is one. I read an article about a mother that meet her son for the first time in 68 years and their love and joy was incredible and could be felt. The peace process is so important on so many levels and we are all important contributors to it. Every Soul on this planet is a contributor to World Peace and every one of us is encouraged to bring the necessary inner Peace, balanced Soul, balanced emotions and balanced physical life. When we live our lives with correct conduct and we implement the ethos of the Keshe Foundation which is:" We are here to serve, not to be served" the power of our own Soul is released, and we will find that we are all connected. Then we can live together in Peace across the world as one united Humanity and we will all be proud ambassadors of Earth in the spans of the Universe and Humanity will be known as a peaceful race. The process of bringing World Peace is the main purpose of the Universal Council and our wishes bring Humanity closer to Peace day by day. Let's live at Peace and wish for Peace and we will achieve Peace, World Peace. **Marie** Norwegian Universal Council Member On August 2, 2018, we, the Universal Council members, celebrated the first anniversary of humanity's signing itself to peace. Exactly one year earlier, we had come together as Universal Council Language Members to sign all the nations of the world to peace. As far as I know, this was the very first time in the history of the world that a group of ordinary people had united through their souls and taken action to make global peace a reality. That, by itself, was a major achievement of the Universal Council. But more importantly, our united souls have since worked both separately and together to elevate all human souls to accept peace and live in a new world without wars – One Nation, One Planet, One Race (1N1P1R), a world that is perpetually peaceful and knowledgeable enough to travel the spans of the universe. Over the last one year, we have actively joined our souls to not only wish for peace in problem areas of the world, but to also elevate the souls of all the people who live in such problem areas, including those who deny others peace in those areas. In so doing, we have continually learned to give in all directions, like the sun. Through loving and giving from our souls, we have, slowly but surely, found the right path of joining other universal communities in everlasting peace, everywhere. It is this path, and how to master its treading that I mostly had in mind and soul as we celebrated the first anniversary of humanity's signing itself to peace. **Gatua** Gikuyu Universal Council Member My everyday soul peace engagement, is present in my mind. The 2nd of August anniversary was a confirmation of that present commitment of joy that expands my breath and heart to future confirming the past and vice-versa. In Zero-time peace action, emotion and thought, we guarantee the creation of eternity in peace in our reality. This one way of the path to peace with joy and happiness feeling is my favorite and my commemoration! **Rui** Portuguese Universal Council Member WWW.KESHEFOUNDATION.ORG KF NEWS 06	 KF PLASMA TIMES The one-year celebration of the signing of all countries into Peace was a beautiful reminder of what is to come, and a lot of positive changes has already taken place in the world. On August 2, 2018, we, the Universal Council members, celebrated the first anniversary of humanity's signing itself to peace. Exactly one year earlier, we had come together as Universal Council Language Members to sign all the nations of the world to peace. As far as I know, this was the very first time in the history of the world that a group of ordinary people had united through their souls and taken action to make global peace a reality. That, by itself, was a major achievement of the Universal Council. But more importantly, our united souls have since worked both separately and together to elevate all human souls to accept peace and live in a new world without wars – One Nation, One Planet, One Race (1N1P1R), a world that is perpetually peaceful and knowledgeable enough to travel the spans of the universe. Over the last one year, we have actively joined our souls to not only wish for peace in problem areas of the world, but to also elevate the souls of all the people who live in such problem areas,	Le 2 août 2018, nous, les membres de l'Universal Council, avons célébré le 1er anniversaire de la signature de la paix par l'humanité. Un an plus tôt, nous étions réunis, en tant que membres de l'Universal Council, pour signer la paix entre toutes les nations du monde. À ma connaissance, c'était la toute première fois dans l'histoire du monde, qu'un groupe de gens ordinaires s'unissait à travers l'Âme et agissait pour faire de la paix mondiale une réalité. C'est une réalisation majeure de l'Universal Council. Mais plus important encore, nos âmes unies ont, depuis lors, travaillé, à la fois séparément et ensemble, pour élever les âmes humaines, en vue de la paix et afin de vivre dans un monde sans guerres - One Nation, One Planet, One Race (1N1P1R), un monde perpétuellement en paix et suffisamment bien informé pour parcourir les étendues de l'univers. Au cours de cette année, nous avons activement uni nos âmes, non seulement pour souhaiter la paix dans les régions du monde, posant problème,

including those who deny others peace in those areas. In so doing, we have continually learned to give in all directions, like the sun. Through loving and giving from our souls, we have, slowly but surely, found the right path of joining other universal communities in everlasting peace, everywhere. It is this path, and how to master its treading that I mostly had in mind and soul as we celebrated the first anniversary of humanity’s signing itself to peace.	mais aussi pour élever les âmes des personnes vivant dans ces régions, y compris celles qui bafouent la paix des autres. Nous avons appris à donner dans toutes les directions, comme le soleil. En aimant et en donnant de nos âmes, nous avons, lentement mais sûrement, trouvé le chemin pour rejoindre d'autres communautés universelles dans la paix éternelle, partout. C'est cette voie, et la façon de la tracer, que j'avais à l'esprit et dans l'âme, en célébrant le premier anniversaire de la signature de la paix par l'humanité.

ACTUALITÉS DE LA KESHE FONDATION

I express my gratitude to Mr. Keshe, the universal teacher, as his wish is to achieve World Peace on this planet for all souls. My gratitude to all the knowledge seekers, Core Team, Earth Council and Universal Council members, support UC members. Through understanding and applying the knowledge delivered by Mr. Keshe we have started the journey for Peace not only for mankind but also for all souls present on this planet. This is the first time ever that mankind has committed themselves to Peace. How? - you ask. Simply by first signing themselves under the Peace treaty - which is available on the Keshe Foundation website. This is an amazing journey for all of us as we are elevating so many souls around the planet. I say souls, as we are not only touching humanity but also the planet, the animals and all souls. We are changing the course of all existence and this through applying this knowledge by individuals and through freely teaching and sharing. This is the change we have started, to share freely without withholding knowledge. You can find these achievements in our wishes and compare these with what you observe around the World - what is changing and what is in the course of change. The intent of these wishes is to elevate the hyperactive children, by giving freely from our souls to elevate them. One can find the deeper understanding of it, in our universal council charter. Vast majority worldwide have started working on a Peace platform and the first anniversary of the signing of the World Peace Treaty was a milestone for all and a new beginning. My wish, as a universal council member, is world peace.

Mr. Keshe once said to me "Don't look for Physical Outcome". It took me a while to understand this. I am amazed how by stop trying so hard and allowing for our essence to flow. Life shows itself to us in its perfection. We can never slow down or make events go faster in the Universe. It works like a clock, we never gain anything, or lose anything. Three years ago, as much as I knew, and I thought I knew a lot, I was looking through a window that carries with it sadness, frustration and impatience, then, with Mr. Keshe's teaching. I moved from that window to a window that sees the world as a tapestry that its beauty is unfolding, by days, minutes, and second. Now I don't remember the last time I had been sad, frustrated or impatience, an interesting phenomenon is I no longer encounter sad, impatience, frustrated people either.

I remember in Rome Mr. Keshe told me I have so much expectation of my soul, Again I had no idea what he was talking about, Now I understand what he meant.

I have no expectation now. Interesting enough when I wish or ah for something, not like a demand but more like oh, like IT WOULD BE NICE IF THIS COULD HAPPEN, suddenly and unexpectedly it shows up at the right time.

When I said we never gain anything or lose anything, is like this: if you imagine a circle 5 meter diameter, and that circle is you, from the time you are born until you leave this planet, The content changes (our content never changes because it has been there in its perfection) or in a correct way you didn't see the content in a correct way. If your 5-meter diameter had ugliness and now is all beauty. The ugliness wasn't even there. It is all beauty, but you were looking at the wrong window, now you moved to the right window. The ugliness wasn't real, this applies to our all people and to our planet, and everything in the universe, is all beauty, Our SOULS are beauty. Mr. Keshe is teaching us to see the beauty in Our Soul, to go back to who we really are. We created all the ugliness and we were all looking through a wrong window. we just move the curtains and it is contagious too. The Love we carry within. Most importantly, as we all noticed from last year to this year when we celebrated our anniversary. We see all the world with more peace, love and compassion, because it has been there, and us is so bright and once it is turned on it engulfs everything. Now you understand when I said, "We never gain anything or lose anything.".

The Universe is complete and perfect. Mr. Keshe is teaching us to see it and start noticing its perfection. And every day more and more people see the perfection in our planet, in ourselves and everything around us. The world we are heading is that world that has been there with its beauty and miracles that flows with no mistake. We all will be shocked when we look back how we look at our 5-meter content that never changes, but we just see it the way it has always been.

The FOG HAS BEEN LIFTED.

Vast majority worldwide have started working on a Peace platform and the first anniversary of the signing of the World Peace Treaty was a milestone for all and a new beginning. My wish, as a universal council member, is world peace.	dis âmes, car nous ne touchons pas seulement l'humanité, mais aussi la planète, les animaux et toutes les âmes. Nous changeons le cours de toute l'existence et ce, en appliquant ces connaissances, et en enseignant et en partageant librement. C'est le changement que nous avons entamé, partager librement sans cacher la connaissance. Vous trouvez ces avancées dans nos souhaits, en les rapprochant avec ce que vous observez dans le monde - ce qui change et ce qui est en cours de changement. L'intention de ces souhaits, est d'élever les enfants hyperactifs, en donnant librement de nos âmes pour les élever. On peut trouver une compréhension plus profonde dans la charte de l'Universal Council. Une majorité de personnes à travers le monde ont commencé à travailler sur ce chemin de la Paix. Le 1er anniversaire de la signature du Traité de Paix Mondiale est une étape importante et un nouveau départ. Mon souhait, en tant que membre de l'Universal Council est la Paix Mondiale.
Azar – Farsi Universal Council Member	**Azar – Membre Universal Council Farsi**
Mr. Keshe once said to me "Don't look for Physical Outcome". It took me a while to understand this. I am amazed how by stop trying so hard and allowing for our essence to flow. Life shows itself to us in its perfection. We can never slow down or make events go faster in the Universe. It works like a clock, we never gain anything, or lose anything. Three years ago, as much as I knew, and I thought I knew a lot, I was looking through a window that carries with it sadness, frustration and impatience, then, with Mr. Keshe's teaching. I moved from that window to a window that sees the world as a tapestry that its beauty is unfolding, by days, minutes, and second. Now I don't remember the last time I had been sad, frustrated or impatience, an interesting phenomenon is I no longer encounter	M. Keshe m'a dit un jour : ''Ne cherchez pas le Résultat Physique''. Il m'a fallu du temps pour comprendre. Et je le constate, en cessant de forcer et en laissant circuler notre essence. La Vie se montre à nous dans sa perfection. Nous ne pouvons en aucun cas ralentir ou accélérer les événements dans l'Univers. Cela fonctionne comme une horloge, nous ne gagnons jamais rien, ni ne perdons rien. Il y a trois ans, je pensais en savoir beaucoup, je regardais au travers d'une fenêtre, portant avec elle la tristesse, la frustration et l'impatience. Puis, avec l'enseignement de M. Keshe, je suis passée de cette fenêtre, à une fenêtre qui ouvre sur un monde, un peu comme une tapisserie, dont la beauté se déploie, en jours, en minutes et en secondes. Je ne me souviens plus de la

sad, impatience, frustrated people either.

I remember in Rome Mr. Keshe told me I have so much expectation of my soul, Again I had no idea what he was talking about, Now I understand what he meant.
I have no expectation now. Interesting enough when I wish or ah for something, not like a demand but more like oh, like IT WOULD BE NICE IF THIS COULD HAPPEN, suddenly and unexpectedly it shows up at the right time.

When I said we never gain anything or lose anything, is like this: if you imagine a circle 5 meter diameter, and that circle is you, from the time you are born until you leave this planet, The content changes (our content never changes because it has been there in its perfection) or in a correct way you didn't see the content in a correct way. If your 5-meter diameter had ugliness and now is all beauty. The ugliness wasn't even there. It is all beauty, but you were looking at the wrong window, now you moved to the right window. The ugliness wasn't real, this applies to our all people and to our planet, and everything in the universe, is all beauty, Our SOULS are beauty. Mr. Keshe is teaching us to see the beauty in Our Soul, to go back to who we really are. We created all the ugliness and we were all looking through a wrong window. Most importantly, as we all noticed from last year to this year when we celebrated our anniversary. We see all the world with more peace, love and compassion, because it has been there, and we just move the curtains and it is contagious too. The Love we carry within us is so bright and once it is turned on it engulfs everything. Now you understand when I said, "We never gain anything or lose anything.".

dernière fois, où j'ai été triste, frustrée ou impatiente. Et c'est intéressant, je ne rencontre plus de personnes tristes, impatientes, frustrées.

À Rome, M. Keshe m'avait dit que j'attendais beaucoup de mon âme. Là encore, je n'avais aucune idée de ce dont il parlait. Maintenant je comprends ce qu'il voulait dire.
Je n'ai plus aucune attente maintenant. Quand je souhaite quelque chose, c'est non pas comme une demande, mais plutôt comme ''CE SERAIT BIEN SI CELA POUVAIT ARRIVER''. Et soudainement et contre toute attente, cela arrive au bon moment.

Quand je dis que nous ne gagnons jamais rien et nous ne perdons jamais rien, imaginez un cercle de 5 mètres de diamètre. Ce cercle c'est vous, depuis votre naissance jusqu'à votre départ de cette planète. Le contenant change (notre contenant ne change pas, parce qu'il est là dans sa perfection) ou plutôt, vous ne voyez pas le contenant de la bonne façon. Si votre diamètre de 5 mètres paraissait laid, il n'est plus que beauté. Mais la laideur pas là. Tout est beauté, mais vous regardez la mauvaise fenêtre, et maintenant vous êtes passé à la bonne fenêtre. La laideur n'était pas réelle. Cela s'applique à tous nos peuples et à notre planète. Tout dans l'univers, n'est que beauté, nos ÂMES sont beauté. M. Keshe nous apprend à voir la beauté dans Notre Âme, à revenir à qui nous sommes vraiment. Nous avons créé la laideur et avons tous regardé par une mauvaise fenêtre. Nous l'avons tous remarqué, de l'année dernière, à cette année de célébration de notre anniversaire. Nous voyons le monde entier avec plus de paix, d'amour et de compassion. Parce que c'est là, nous ne faisons que déplacer les rideaux et c'est communicatif. L'amour qui nous habite est si lumineux, qu'une fois allumé, il

<tr>
<td>The Universe is complete and perfect. Mr. Keshe is teaching us to see it and start noticing its perfection. And every day more and more people see the perfection in our planet, in ourselves and everything around us.

The world we are heading is that world that has been there with its beauty and miracles that flows with no mistake. We all will be shocked when we look back how we look at our 5-meter content that never changes, but we just see it the way it has always been.

The FOG HAS BEEN LIFTED.</td>
<td>enveloppe tout. "Nous ne gagnons jamais rien et nous ne perdons jamais rien".

L'Univers est complet et parfait. M. Keshe nous apprend à le voir et à remarquer sa perfection. Et chaque jour, de plus en plus de gens voient la perfection en notre planète, en chacun de nous et en tout ce qui nous entoure.

Le monde vers lequel nous nous dirigeons est ce monde qui est là, avec sa beauté et ses miracles qui coulent à flots sans défaut. Nous serons tous surpris, en regardant notre contenu de 5 mètres qui ne change jamais, et en le voyant simplement comme il a toujours été.

On August 2, 2018 we celebrated the first anniversary of the signing of the World Peace Treaty.

We also celebrated on the same day the birthday of Mr. Keshe whom we will never thank enough for his dedication and his infallible love for humanity.

We had a very nice "marathon" to prepare a presentation to show the progress of the work of the Universal Council on their achievements. What I saw that day was a tremendous wave of preparation and consolidation of achievements. A beautiful synthesis was made thanks to a magnificent enthusiasm of the teams to allow us to answer present on behalf of our language communities. What is certain is that the deployment of peace is launched for the entire planet. We have witnessed many concrete examples from around the world. We, the Universal Council, have learned and grown up with the teaching of Mr. Keshe, to serve our communities. Many initiatives are in place and others are in preparation.

Arabic community has a weak signal joining currently and she will be with us very soon!

The members of the Universal Council, with their unconditional love, with their Soul and commitment, are dedicated to serving and meeting the needs of the One Nation. The present world is a challenge and a beautiful challenge that nothing will stop us to serve Love, Happiness, Justice and the Life of the Planet and all living beings.

Please, JOIN us to build ALL together a better future for the Earth and for the Universe, a future which we have started!

Arabic community has a weak signal joining currently and she will be with us very soon! The members of the Universal Council, with their unconditional love, with their Soul and commitment, are dedicated to serving and meeting the needs of the One Nation. The present world is a challenge and a beautiful challenge that nothing will stop us to serve Love, Happiness, Justice and the Life of the Planet and all living beings. Please, JOIN us to build ALL together a better future for the Earth and for the Universe, a future which we have started!	Le 2 août 2018, nous avons célébré le premier anniversaire de la signature du Traité de Paix Mondiale. Nous avons également célébré le même jour l'anniversaire de M. Keshe que nous ne remercierons jamais assez, pour son dévouement et son amour infini envers l'humanité. Nous avons eu un joli ‘’marathon’’ pour élaborer une présentation, montrant l'avancement des réalisations de l’Universal Council. J'ai vu une formidable vague de préparation et de consolidation des réalisations. Une belle synthèse a été faite, avec un magnifique enthousiasme des équipes, pour nous permettre de répondre présent au nom de nos communautés linguistiques. Ce qui est certain, c'est que le déploiement de la paix est lancé pour la planète entière. Nous avons été témoins d’exemples concrets dans le monde entier. Nous, l’Universal Council, avons appris et grandi avec l'enseignement de M. Keshe, pour servir nos communautés. Beaucoup d’initiatives sont en place, d'autres sont en préparation. La communauté Arabe a un faible signal d'adhésion et elle sera avec nous très bientôt ! Les membres de l’Universal Council, avec leur amour inconditionnel, leur Âme et leur engagement, se consacrent à servir et à répondre aux besoins de One Nation. Le monde actuel est un défi et un magnifique défi, et rien ne nous empêchera de servir l'Amour, la Joie, la Justice et la Vie de la Planète et de tous les êtres vivants. S'il vous plaît, REJOIGNEZ-nous pour construire TOUS ensemble un avenir meilleur pour la Terre et pour l'Univers, un avenir que nous avons commencé !

This year on 2nd of August we have celebrated 60-man years on Earth for the director and founder of the Keshe Foundation, nuclear engineer Mehran T. Keshe.

Taking us by surprise, instead of expecting a gift, Mr. Keshe has made the most beautiful gift towards humanity. On his 60th anniversary of life he has offered the nations the GIFT OF LIFE. The promise to bring up from coma 60 cases, with full support towards recovery to enjoy their lives together with the loved ones.

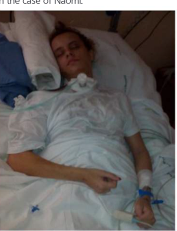

Read below to learn more about the message Mehran Keshe is sending to humanity, calling us all to join for peace. The full announcement can be accessed on YouTube in the 235th Knowledge Seekers Workshop(https://youtu.be/XbBHwT8AtSc?t=16m29s).

"We invite the president of the United States, from the Iranian nation to Tehran. Let's see what happens this time. The last time when we talked about peace, within 14 days we saw the foreign secretary of the United States in the port of Iran. Unfortunately, the accident, but at the end we saw the solution. So as the Iranian nation we invite you to Tehran. No precondition. At the same time, this is a call from the Iranian nation, not the government. We talk about peace openly and with no precondition. I know the American government and the officials are in the background listening, I know the Chinese ambassadors and the Chinese government are on the line listening. My call goes not to meet in Singapore, not to meet in another port, but to meet in Tehran. This way we solve the problem for good.

[…] I have asked the Keshe Foundation Core Team, the Earth Council and the Universal Council to start making arrangement for encouragement and unification and start of the peace at this level[…]

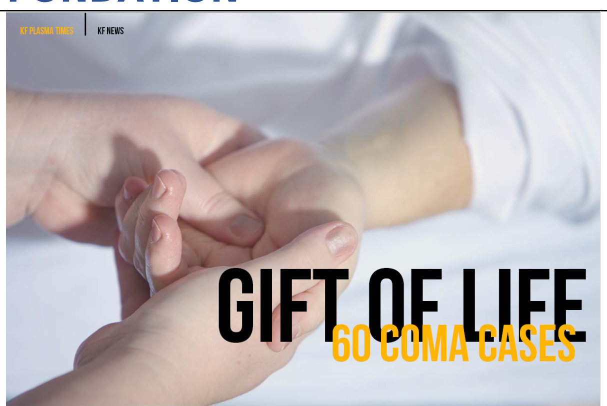

The Gift is as such: Today is the 60th birthday of my life. We divide that equally, and that is... today we offer 10 Americans the gift of life. We are looking for 10 Americans who are in coma, been in coma irrespective of time 5 years, 10 years, 2 years... to give their life back to them within 30 days. It's the responsibility of American Keshe Foundation to find the 10 and the gift will be given by the Iranians to the Americans by the knowledge which came from Iran. [...]

So, in that respect, the Keshe Foundation Arizona will provide all the facilities, all the systems and equipment to support, to give life back to 10 Americans, unconditional, military, private, old, young... it's for the American Keshe Foundation to find and the gift will be given. I supervise the whole process, individually for each case as we did in the case of Naomi.

If you look at the pictures of Naomi, a year ago, two years ago, on 6th, 7th of July 2016 and we see her picture, a video which provided for us, or provided to us by Giovanni… this is two years ago, no life in the body (https://youtu.be/XbBHwT8AtSc?t=20m37s).

My call goes not to meet in Singapore, not to meet in another port, but to meet in Tehran. This way we solve the problem for good.	Nous invitons le président des États-Unis à Téhéran, au nom de la nation iranienne. Nous verrons ce qui se passera cette fois-ci. La dernière fois où nous avons évoqué la paix, dans les 14 jours suivants, nous avons vu le ministre des affaires étrangères des États-Unis dans le port d'Iran. Ce fut hélas un échec, mais à la fin, nous avons vu la solution. En tant que nation iranienne, nous vous invitons à Téhéran. Aucune condition préalable. C'est un appel de la nation iranienne, pas du gouvernement. Nous parlons de paix ouvertement et sans condition préalable. Le gouvernement américain et les fonctionnaires écoutent en arrière-plan, les ambassadeurs Chinois et le gouvernement Chinois sont en ligne et écoutent. Mon appel n'est pas pour se réunir à Singapour, ni dans un autre port, mais pour se réunir à Téhéran. De cette façon, nous résoudrons le problème définitivement.
[…] I have asked the Keshe Foundation Core Team, the Earth Council and the Universal Council to start making arrangement for encouragement and unification and start of the peace at this level[…] The Gift is as such: Today is the 60th birthday of my life. KF PLASMA TIMES

And then we received this today, or yesterday from Giovanni to be released, for the celebration of today, 2 years on. And when you see this video, when you see this picture of Naomi, the one which has been provided yesterday by the family, you see the life **(https://youtu.be/XbBHwT8AtSc?t=20m52s)** […]

This is gift of life. Many fathers in America, many mothers and parents and children are waiting for this. Small kiss for those who've been in the land of coma. We charge nothing, it's a free gift from the Keshe Foundation worldwide to all the people. This is the gift from Iran to the Americans in and for the steps the American President has taken. In Iran we have a tradition, we welcome people of peace with a gift. And this time we give the gift, 10 lives, 10 American lives. You choose. […]

It cannot be one way. It has to be equal. We offer the same 10 coma patients in Tehran, in Iran. Doctor Azar has accepted to return to Iran to see the transition. To see, to overlook, to watch, that the ten patients' seats. The Earth Council member of the Keshe Foundation, doctor Parviz has **accepted** to support. So, if you are Iranian, find us ten lives. A life in America is equal to Iran.

We cannot just be one sided and just look at one thing. We have to look at the people who supported and brought this position of world disarmament with strength and power and that's China. In China, we do the same. We offer ten coma patients back to life. Unconditionally. A number have been **found** as we've been working on this for some times.

So that makes it 30 lives across East, West and Middle East. It's the responsibility of the Keshe Foundation supporters to find. Carolina and I we would like to thank the government of Italy to support us, to protect us for past years. I have mentioned and asked Giovanni that we give the gift of life to 5 Italians. […]

We have developed a rapid way to reverse coma and I think if we can show that we can give life to a man or a woman or a child we can give a new life to humanity and start fresh with peace. When you see a child moving out of coma it gives you a lot of peace. I will see man comes out of this obscurity of fighting and war after centuries and thousands of years. It'll give the man a new hope.

On the other hand, we have to be correct and, in that process, we are left with about 25 more lives. We accept anywhere on this planet. Whoever would like to give the gift of life back to the loved ones.

In so many ways we will announce a number to one of the smallest nations islands in the next few days. A gift of life to the members of that nation. […]

In a way, no president, no ambassador, can refuse the gift of life, unless he's not human. In so many ways, 60 lives should be the sign of peace, the time of change. […] In Chinese there is a say, there is a cycle of 60 years and a new life starts. Let that 60 years be today.

In Iran we have a tradition, we welcome people of peace with a gift. And this time we give the gift, 10 lives, 10 American lives. You choose. […]	C'est un cadeau de la vie. De nombreux pères en Amérique, de nombreuses mères, des parents et des enfants attendent cela. Un simple baiser à ceux qui ont connu le coma. Nous ne demandons rien, c'est un don gratuit de la Fondation Keshe à toutes les populations. C'est le cadeau de l'Iran aux Américains, suite aux mesures prises par le président américain. En Iran, nous avons une tradition, nous accueillons les gens de paix avec un cadeau. Et cette fois-ci, nous offrons ce cadeau, 10 vies, 10 vies américaines. A vous de choisir. […]
It cannot be one way. It has to be equal. We offer the same 10 coma patients in Tehran, in Iran. Doctor Azar has accepted to return to Iran to see the transition. To see, to overlook, to watch, that the ten patients' seats. The Earth Council member of the Keshe Foundation, doctor Parviz has accepted to support. So, if you are Iranian, find us ten lives. A life in America is equal to Iran.	Cela doit se faire équitablement. Le même est offert à dix patients dans le coma à Téhéran Iran. Le docteur Azar a accepté de retourner en Iran pour voir la transition. Pour assister, pour surveiller, pour observer les dix patients. Le docteur Parviz, membre du Conseil de la Terre de la Fondation Keshe, a accepté d'apporter son soutien. Ainsi, si vous êtes iranien, trouvez dix vies. Une vie en Amérique est égale à une vie en Iran.
We cannot just be one sided and just look at one thing. We have to look at the people who supported and brought this position of world disarmament with strength and power and that's China. In China, we do the same. We offer ten coma patients back to life. Unconditionally. A number have been found as we've been working on this for some times.	Nous ne pouvons regarder que d'un seul côté. Nous devons considérer les peuples, soutenant et apportant cette position de désarmement mondial avec force et puissance. Ainsi est la Chine. En Chine, nous faisons la même chose. Nous proposons à dix patients dans le coma de revenir à la vie. Sans condition. Certains ont été trouvés, car nous y travaillons depuis un certain temps.
So that makes it 30 lives across East, West and Middle East. It's the responsibility of the Keshe Foundation supporters to find. Caroline and I we would like to thank the government of Italy to support us, to protect us for past years. I have mentioned and asked Giovanni that we give the gift of life to 5 Italians.	Cela fait donc 30 vies à travers l'Orient, l'Occident et le Moyen-Orient. C'est de la responsabilité des supporters de la Fondation Keshe de les trouver. Caroline et moi remercions le gouvernement italien de nous soutenir et nous protéger ces dernières années. J'ai dit et demandé à Giovanni que nous fassions le don de la vie à 5 Italiens.

[…]	[…]
We have developed a rapid way to reverse coma and I think if we can show that we can give life to a man or a woman or a child we can give a new life to humanity and start fresh with peace. When you see a child moving out of coma it gives you a lot of peace. I will see man comes out of this obscurity of fighting and war after centuries and thousands of years. It'll give the man a new hope.	Nous avons conçu un moyen rapide pour inverser le coma. Si nous prouvons, que nous pouvons redonner la vie, à un homme, une femme ou un enfant, nous pouvons redonner une nouvelle vie à l'humanité, repartir à zéro avec la paix. Quand vous voyez un enfant sortir du coma, vous ressentez beaucoup de paix. L'homme va sortir de l'obscurité des guerres, après des siècles. Cela va donner à l'homme un nouvel espoir.
On the other hand, we have to be correct and, in that process, we are left with about 25 more lives. We accept anywhere on this planet. Whoever would like to give the gift of life back to the loved ones. In so many ways we will announce a number to one of the smallest nations islands in the next few days. A gift of life to the members of that nation. […]	D'un autre côté, nous devons être corrects. Dans ce processus, nous nous retrouvons avec environ 25 vies de plus. Nous acceptons de le faire partout sur cette planète, pour quiconque désirant transmettre le cadeau de la vie à ses êtres chers. Nous annoncerons un nombre à l'une des plus petites nations des îles dans les prochains jours. Un cadeau de la vie aux membres de cette nation. […]
In a way, no president, no ambassador, can refuse the gift of life, unless he's not human. In so many ways, 60 lives should be the sign of peace, the time of change. […] In Chinese there is a say, there is a cycle of 60 years and a new life starts. Let that 60 years be today.	Aucun président, aucun ambassadeur ne peut refuser le don de la vie, sauf s'il n'est pas humain. 60 vies doivent être le signe de la paix, le temps du changement. [...] En chinois, on dit qu'il y a un cycle de 60 ans et qu'une nouvelle vie commence. Que ces 60 ans commencent aujourd'hui.

Page 11 **KF NEWS**	**Page 11** **ACTUALITÉS DE LA KESHE FONDATION**
 In so many ways we live to serve, and we live to serve peace and humanity. We are not talking as if and so, we're talking with a lot of strength as we can, and we do. I asked all the members of the Keshe Foundation, all the people who will listen to these teachings: Find 60 men, children, adults, even if you have an animal in coma, it's still a soul, we'll give the life back. It's my gift to humanity and we have shown it twice that we can do, the evidence is well in front of us. And in so many ways, as the president of the United States said, no preconditions. Muslim, Christian, Jew, Buddhist, white, black, yellow, Chinese, American, Iranian, Russians, any one of them. There is a very important point to remember and that is, in every law of the nations, in all the nations of this planet, there is one common law. And that says you can do to yourself whatever you like in your home. We did this with the first coma patient. And we did this in so many ways with Naomi. If the officials and doctors refuse to take up the call, as it is not an intrusive, an invasive process it's the creation of the field within the boundary of the body of the man, you can take your patient home. And we offer it openly. I guarantee one thing. I give life back to every single 60 persons. The extent of recovery, the stages of recovery, the loss of memory. We look at the conditions and if and when we accept the conditions we take over, we proceed.  Even part of brain missing, no problem, I've done that before. You need a pinhead part of the brain to put within it the whole operation of the body of the man. The size of the brain of the man is too big and useless. We can get them walking, we can get them talking, we can get them the joy of life. […] Those of you who are listening start searching for the Americans, for the Iranians, and Chinese and Italians who the loved ones for years have been sitting looking at the body with no emotion. We give life back to them. It's your responsibility, not mine. Finding them is your job, giving life back is Exclusion. State of Belgium does not operate under this condition. We accept no Belgium citizen or residents to be included in this part. The exclusion comes up of their own doing and the love we have for the community not to be damaged any further. The whole process of giving life, will be live. As we receive the requests and as the families would like to agree to be identified or to be known, we'll release. If those who want to be kept anonymous, not to have the intrusion, we respect that too. We are not here for fame, we are here for peace, we are here to create the condition of peace. And peace needs a lot of strength, a lot of correct conduct, and a lot of guts. And I have all of it. The knowledge is a knowledge of the Universe and our power sits with the power of the totality of the man. Keshe Foundation European Research center will provide every single system needed for Iran. Keshe Foundation Arizona will support the United States and Southern America. In China, in our research centers in Shenzhen we support the whole of Chinese project. And for rest of the world, collectively from the centers we have and the position we have in Nigeria and in Kenya we support any African request.[...] We come to the nation with the power of science to give life." **Mehran Tavakoli Keshe** Director and Founder of Keshe Foundation 235th Knowledge Seekers Workshop  	KF PLASMA TIMES In so many ways we live to serve, and we live to serve peace and humanity. Muslim, Christian, Jew, Buddhist, white, black, yellow, Chinese, American, Iranian, Russians, any one of them.	De bien des façons, nous vivons pour servir, et nous vivons pour servir la paix et l'humanité. Nous ne parlons pas à la légère, nous parlons avec beaucoup de force, et nous agissons. Je demande à tous les membres de la Fondation Keshe, à toute personne, écoutant ces enseignements : Trouvez 60 hommes, enfants, adultes, même si vous avez un animal dans le coma, c'est une âme, nous lui rendrons la vie. C'est mon cadeau à l'humanité. Nous avons montré à deux reprises que nous pouvons le faire, les preuves sont là. Et comme l'a déclaré le président des États-Unis, aucune condition préalable. Musulmans, Chrétiens, Juifs, Bouddhistes, blancs, noirs, jaunes, Chinois, Américains, Iraniens, Russes, peu importe.
There is a very important point to remember and that is, in every law of	Rappelons un point très important, à savoir que parmi les lois des nations, au

the nations, in all the nations of this planet, there is one common law. And that says you can do to yourself whatever you like in your home. We did this with the first coma patient. And we did this in so many ways with Naomi. If the officials and doctors refuse to take up the call, as it is not an intrusive, an invasive process it's the creation of the field within the boundary of the body of the man, you can take your patient home. And we offer it openly. I guarantee one thing. I give life back to every single 60 persons. The extent of recovery, the stages of recovery, the loss of memory. We look at the conditions and if and when we accept the conditions we take over, we proceed.	sein de toutes les nations de cette planète, il y a une loi commune. Cette loi stipule que vous pouvez vous faire ce que vous voulez chez vous. Nous l'avons fait avec le premier patient dans le coma. Nous l'avons fait avec Naomi. Si les autorités et les médecins déclinent cet appel, sachant qu'il ne s'agit pas d'un processus intrusif, voire invasif, mais de la création d'un champ à l'intérieur des limites du corps de l'homme, vous pouvez reconduire le patient chez lui. Et nous le proposons publiquement. Je vous garantis une chose. Je redonne la vie à chacune des 60 personnes. Le niveau de guérison, les étapes de la guérison, la perte de mémoire, nous étudions les conditions. Et si nous acceptons de prendre en main le patient, nous agissons.
Even part of brain missing, no problem, I've done that before. You need a pinhead part of the brain to put within it the whole operation of the body of the man. The size of the brain of the man is too big and useless. We can get them walking, we can get them talking, we can get them the joy of life.	Même s'il manque une partie du cerveau, pas de problème, je l'ai déjà fait auparavant. Il suffit d'une portion de cerveau pour y intégrer tout le mécanisme du corps de l'homme. La taille du cerveau de l'homme est trop grande et inutile. On peut les faire marcher, on peut les faire parler, on peut leur redonner la joie de vivre.
[…] Those of you who are listening start searching for the Americans, for the Iranians, and Chinese and Italians who the loved ones for years have been sitting looking at the body with no emotion. We give life back to them. It's your responsibility, not mine. Finding them is your job, giving life back is my job and I keep to my promise.	[…] Que ceux qui écoutent, se lancent à la recherche d'Américains, d'Iraniens, de Chinois et d'Italiens, dont les parents regardent depuis des années le corps sans émotion. Nous leur redonnons la vie. C'est votre responsabilité, pas la mienne. Les trouver, c'est votre travail. Redonner la vie, c'est mon travail et je tiens ma promesse.
Exclusion. State of Belgium does not operate under this condition. We accept no Belgium citizen or residents to be included in this part. The exclusion comes up of their own doing and the love we have for the community not to be damaged any further.	Exclusion. L'État belge ne remplit pas cette condition. Nous n'acceptons pas que des citoyens ou résidents belges participent à cette action. L'exclusion résulte de leur propre volonté et l'amour que nous avons pour la communauté ne doit pas être affecté davantage.
The whole process of giving life, will be live. As we receive the requests and as the families would like to agree to be	Tout le processus de redonner la vie, sera en temps réel. Au fur et à mesure que nous recevons les demandes et que

identified or to be known, we'll release. If those who want to be kept anonymous, not to have the intrusion, we respect that too. GIFT OF COMFORTABLE AND PEACEFUL COEXISTENCE IRAN - USA

As Mehran T. Keshe has announced on 2nd of August 2018, together with the Earth Council of the Keshe Foundation a letter was drafted, signed and sent to the President of United States of America, His Excellency President Donald J Trump, as well to the embassy of Iran and multiple other embassies around the world.

In the letter Mehran T. Keshe extends an invitation on behalf of the nation of Iran for the meeting with Donald Trump, to reach an agreement for world peace.

“Following your announcement of last week that you would meet anywhere and anytime, without any preconditions, the nation of Iran would like to invite you to meet with us in Tehran, Iran, anytime in August of 2018.”

“As an Iranian leading nuclear scientist and the initiator of the last peace talks in Brussels on the 15 November of 2012 between Iran and United States of America, which led to the 5+1 agreement in private discussions. In that meeting with your officials, by request of His Excellency President Obama, we stopped the thirty-year war between our nations and started a dialog that led to the first steps of talk and peace between our two nations.

Now, you see amendments which are needed to the last agreement reached, maybe you are right, maybe we need to satisfy each other’s sense of insecurity to move both nations to new levels of understanding.”

”My offer to you and your nation is as follows: In your visit to Iran, we will open all our nuclear facilities for you personally to visit. This means unconstitutional transparency as I offered the last time, and my government followed it through. We will allow you and your team to choose any site, which you and your national security team would like to visit, to be opened within and during your stay in Iran.

When one sees the truth, one cannot be afraid of the truth. This way we lay aside all your fears of Iran’s capabilities.”

“That by the time of your return to your nation from your visit to Iran and a reciprocal visit of the Iranian leader His Excellency President Rouhani in September to the United States, our scientists jointly will awaken at least 10 Americans and 10 Iranian nationals from the sleep of life in coma using the new plasma space technology.

The gift of life to one man is the biggest gift from one person or nation that one can ever give to another man or a nation. With this gift and hospitality from Iran, we shower both nations of ours with the biggest gift of all, which is the gift of life and trust in our abilities to solidify and strength the arms of peace and the brotherhood of man. No man or even the world leaders cannot refuse such a gift, even if it is offered to one of its nation’s animals, let alone to ten of its citizens.”

 KF PLASMA TIMES | KF NEWS GIUSEPPE E GRAZIANA A JOYFUL EVENT... In Italy With great happiness we have been invited and participated to a wonderful event on 18th of August 2018. Our colleague from Keshe Foundation Manufacturing Italy has joined his life with the loved one, with the promise of a long and fruitful relationship. Giuseppe and Graziana have both said YES! to each other in front of their family, in front of their colleagues and friends, and nonetheless, in front of all the souls watching over from the Universal Community. The event was seamlessly planned until the last bit. It was joyful, fun and filled with love that melted all our hearts. We wish the newly wedded couple a wonderful journey in life together, to live within the ethos of the Universe and to cherish their souls as one. Within all the excitement and emotions, before leaving for their honeymoon vacation, Giuseppe has raised our curiosity with the promise of new and interesting developments starting with this Autumn from the Keshe Foundation Manufacturing Italy team. Let's follow them for more updates! WWW.KESHEFOUNDATION.ORG | 13	 KF PLASMA TIMES | KF NEWS GIUSEPPE E GRAZIANA A JOYFUL EVENT... A joyful event in Italy	**Évènement heureux en Italie**
With great happiness we have been invited and participated to a wonderful event on 18th of August 2018. Our colleague from Keshe Foundation Manufacturing Italy has joined his life with the loved one, with the promise of a long and fruitful relationship.	C'est avec grand plaisir que nous avons été invités et avons participé à un merveilleux événement le 18 août 2018. Notre collègue de la Fondation Keshe en Italie a lié sa vie à celle de l'être aimé, avec la promesse d'une relation longue et fructueuse.
Giuseppe and Graziana have both said YES! to each other in front of their family, in front of their colleagues and friends, and nonetheless, in front of all the souls watching over from the Universal Community. The event was seamlessly planned until the last bit. It was joyful, fun and filled with love that melted all our hearts.	Giuseppe et Graziana se sont dit OUI ! devant leur famille, devant leurs collègues et amis, et dans le même temps, devant toutes les âmes qui veillent, au sein de la Communauté Universelle. L'évènement a été parfaitement organisé. Ce fut joyeux, convivial et rempli d'amour, ce qui a fait fondre nos cœurs.

<table>
<tr>
<td>We wish the newly wedded couple a wonderful journey in life together, to live within the ethos of the Universe and to cherish their souls as one.

Within all the excitement and emotions, before leaving for their honeymoon vacation, Giuseppe has raised our curiosity with the promise of new and interesting developments starting with this Autumn from the Keshe Foundation Manufacturing Italy team. Let’s follow them for more updates!</td>
<td>Nous souhaitons aux nouveaux mariés un merveilleux voyage de vie commune, dans l'éthos de l'Univers et aimer leurs âmes comme une seule.

Dans cette excitation et ces émotions, avant de partir pour leur lune de miel, Giuseppe a éveillé notre curiosité, nous promettant de nouveaux développements intéressants, à partir de cet automne de la part de l'équipe de la Fondation Keshe en Italie. Nous les suivrons pour d'autres développements !</td>

ROBERT AND CAROLINE BALANDA SHARE THEIR PLASMA BALANCING EXPERIENCE

Keshe Foundation is advancing steadily in the Research and Development of the Keshe Plasma Science and Technology. Knowledge seekers all around the world are applying the known methods with wonderful results.

One of the multiple cases has recently been presented in the 234th Knowledge Seekers Workshop, 1h57min, held on July 26th, 2018. (https://youtu.be/D5TbRArnFaQ?t=1h57m40s).

"In so many ways it shows how now we start travelling around the world to use the knowledge of the plasma technology and it's amazing what it does. This is done by one of the, what I call, biggest supporters, one of the distributors of the Keshe Foundation Australia and the market which it supports and there are, the voice you hear is the voice of Mr. Richard Presser and he's interviewing these two-beautiful people, the couple... And listen to it I think it brings you a lot of things in totality how the knowledge is used by knowledgeable people who understand the technology in totality." said Mehran T. Keshe, right before the interview was played for the audience.

The almost 12 minutes long video is presenting the story of a couple that found themselves in front of difficult life decisions after being diagnosed with severe cancers. They had the choice of walking the old ways and reverting to the common medicine methods or going forward with plasma applications developed with the Keshe Plasma Science and Technology.

“April of 2018 Robert and Caroline Balanda went to Brazil for some healing work. Some months prior Caroline had been diagnosed with an aggressive form of breast cancer which led to the mastectomy of her left breast.” Richard Presser is mentioning in the introduction. He continues “She chose to not have chemotherapy and radiation therapy but elected for treatment using the plasma healing technology from the Keshe Foundation and other complementary modalities provided by a healing team in Brazil.”

“We had a fabulous time,” Robert says, “We met two colorful entertaining demonstrative women they gave us wonderful healthcare treatment. It was a great experience, I'd recommend it.“

“For me, it was about assuring ourselves of a healthy future, and longevity, and actually making sure nothing would step in the way of that again. If you don't know my husband had cancer and I had so much compassion for him for all, that I ended up with it - in the breast triple negative which is a very, very hard cancer to get rid of, but I'm free.” Caroline continued. Like his wife, Robert has been facing health problems of his own “three and a half years ago I had a double hip replacement.

And listen to it I think it brings you a lot of things in totality how the knowledge is used by knowledgeable people who understand the technology in totality." said Mehran T. Keshe, right before the interview was played for the audience.	‘’Cela montre, à bien des égards, comment nous commençons à voyager dans le monde entier, pour utiliser les connaissances de la technologie du plasma et c'est incroyable ce qu'elle fait. Ceci est réalisé par l'un des plus grands supporters, distributeur de la Keshe Fondation en Australie. La voix que vous entendez est celle de M. Richard Presser qui interviewe ces deux personnes merveilleuses, ce couple... En écoutant, je pense que cela apporte beaucoup de réponses, sur la façon dont la connaissance est utilisée par les personnes bien informées, qui comprennent la technologie dans sa totalité‘’, a déclaré Mehran T. Keshe, juste avant que l'interview ne soit diffusé au public.
The almost 12 minutes long video is presenting the story of a couple that found themselves in front of difficult life decisions after being diagnosed with severe cancers. They had the choice of walking the old ways and reverting to the common medicine methods or going forward with plasma applications developed with the Keshe Plasma Science and Technology.	La vidéo, de 12 minutes, présente l'histoire d'un couple, qui s'est trouvé confronté à des décisions de vie difficiles, après avoir été diagnostiqué comme étant atteints de cancers graves. Ils avaient le choix, entre suivre les anciennes voies et passer aux méthodes de médecine générale. Ou bien, poursuivre avec les applications Plasma, développées par la Technologie Keshe et la Science du Plasma.
“April of 2018 Robert and Caroline Balanda went to Brazil for some healing work. Some months prior	‘’En avril 2018, Robert et Caroline Balanda vont au Brésil pour un travail de guérison. Quelques mois

Caroline had been diagnosed with an aggressive form of breast cancer which led to the mastectomy of her left breast." Richard Presser is mentioning in the introduction. He continues "She chose to not have chemotherapy and radiation therapy but elected for treatment using the plasma healing technology from the Keshe Foundation and other complementary modalities provided by a healing team in Brazil."	auparavant, Caroline est diagnostiquée avec une forme agressive de cancer du sein, ayant entraîné la mastectomie du sein gauche.'' Richard Presser l'évoque dans l'introduction. Il poursuit : " Elle choisit de ne pas subir de chimiothérapie, ni de radiothérapie, mais opte pour un traitement utilisant la technologie de soins par le plasma de la Fondation Keshe, ainsi que d'autres modes complémentaires, délivrés par une équipe de soins au Brésil.''
"We had a fabulous time," Robert says, "We met two colorful entertaining demonstrative women they gave us wonderful healthcare treatment. It was a great experience, I'd recommend it."	''Nous avons passé un moment fabuleux'', dit Robert. ''Nous avons rencontré deux femmes pittoresques et drôles, qui nous ont donné de merveilleux soins de santé. Cela a été une expérience formidable, je la recommande.''
"For me, it was about assuring ourselves of a healthy future, and longevity, and actually making sure nothing would step in the way of that again. If you don't know my husband had cancer and I had so much compassion for him for all, that I ended up with it - in the breast triple negative which is a very, very hard cancer to get rid of, but I'm free." Caroline continued.	''Pour moi, il s'agissait de nous assurer un avenir en bonne santé, ainsi que la longévité, faire en sorte que plus rien ne vienne entraver cela. Personne ne savait que mon mari avait un cancer. J'avais tellement de compassion pour lui, que j'ai fini par être atteinte d'un cancer triple négatif du sein, cancer très difficile à éliminer, mais je suis libre'', a ajouté Caroline.
Like his wife, Robert has been facing health problems of his own "three and a half years ago I had a double hip replacement.	Comme sa femme, Robert a eu ses propres problèmes de santé. ''Il y a trois ans et demi, j'ai subi une double prothèse de la hanche.

KF PLASMA TIMES

That all went well but being so many hours under the knife had brought on a major mental health event, saw me as a become a resident of mental health hospital for a few months and then a day patient for a few months and then after that experience I was diagnosed with terminal cancer. Got over terminal cancer, free of that, hips are fine now, but I was left with a loss of…major loss of cognitive functions so I had to… to retire from my profession and retire some years earlier, so I was no longer capable of practicing my profession. So, the reason for going to Brazil was to get some backup health treatment, some alternative health treatment to, you know, support us we were free if I was free of cancer so was Carolyn and to confirm that and support that and also a hope that I might be able to improve my cognitive functions. Well, we've maintained the position being free of cancer, both of us, the tests we had while we were there and after in towards the end of it and they confirm we're still free, completely free of cancer, but I've also improved my cognitive functions." After almost a month spent in Brazil with the medical team that has supported them, Caroline and Robert have decided to continue the research and learning about the new Keshe Plasma Science and Technology, sharing with everyone their positive feedback and experience.

"Now that we're back we continue it and we will always continue it because we never want to go back to that horrific time that we went through and came through together. And I think we are both sitting here saying: This is a miracle! We did it! you know, and I just think there's great hope for the world. I think this… that Mr. Keshe is teaching us, it's expanding all around the world and a lot of people are adding to it all the time including ourselves.

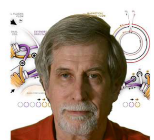

We go now to classes and we learn how to make our plasma and we're putting it in our house and our gardens and altering the environment that we live in that could contribute to cancer.

And the things that we're doing will also help overcome any of the EMF fields and will also create an energy that is conducive for the body to thrive in and that's what I'm focused on that's what I went over to there to learn about and the girls gave me a lot of information about that and I'm very grateful. And I'm so glad about that because we've seen a lot of people sick around us who are coming to us and saying well such-and-such died of what you guys got how come you're alive and we have something to share now" Caroline shared during the interview.

"I believe we're in a changing world I believe this technology is all around us if we look for it it's not easy you've got to decide to get in there and do it […] I think we owe it to our families I think we owe it to our partners that we stay healthy […] Thank You Mr. Keshe we would not most probably be here without you."

Cela se passait bien. Mais le fait d'avoir passé tant d'heures sous le bistouri a entraîné un incident important au niveau psychologique. J'ai été interne dans un hôpital psychiatrique durant quelques mois. Puis un jour, je suis devenu patient durant quelques mois. Après cette expérience, on m'a diagnostiqué un cancer en phase terminale. J'ai surmonté cela. Les hanches vont bien maintenant, mais j'ai subi une perte importante de mes fonctions cognitives. J'ai été contraint de me retirer de la vie professionnelle et prendre ma retraite plus tôt. La raison, pour laquelle je suis allé au Brésil, était d'obtenir un traitement médical de secours, un traitement alternatif pour nous rendre libres, comme si je n'avais pas ce cancer,

Carolyn and to confirm that and support that and also a hope that I might be able to improve my cognitive functions. Well, we've maintained the position being free of cancer, both of us, the tests we had while we were there and after in towards the end of it and they confirm we're still free, completely free of cancer, but I've also improved my cognitive functions."	tout comme Caroline. Et aussi dans l'espoir que je puisse améliorer mes fonctions cognitives. Nous avons maintenu notre position et nous sommes libérés du cancer, tous les deux. Les tests que nous avons subis, pendant et après notre séjour là-bas vers la fin confirment que nous sommes toujours libres, complètement libérés du cancer, et j'ai aussi amélioré mes fonctions cognitives.''
After almost a month spent in Brazil with the medical team that has supported them, Caroline and Robert have decided to continue the research and learning about the new Keshe Plasma Science and Technology, sharing with everyone their positive feedback and experience.	Après environ un mois passé au Brésil avec l'équipe médicale qui les a soutenus, Caroline et Robert ont décidé de poursuivre la recherche et l'apprentissage de la nouvelle Science et Technologie du Plasma Keshe, partageant avec chacun leur retour positif et leur expérience.
"Now that we're back we continue it and we will always continue it because we never want to go back to that horrific time that we went through and came through together. And I think we are both sitting here saying: This is a miracle! We did it! you know, and I just think there's great hope for the world. I think this… that Mr. Keshe is teaching us, it's expanding all around the world and a lot of people are adding to it all the time including ourselves.	''Maintenant que nous sommes de retour, nous continuons et continuerons toujours. Nous ne voulons plus jamais revenir à cette horrible période, traversée ensemble. Et je pense que nous sommes tous les deux assis ici disant : C'est un miracle ! Nous l'avons fait ! Je pense qu'il y a un grand espoir pour le monde. Ce que M. Keshe nous enseigne se répand dans le monde et beaucoup de gens y ajoutent tout le temps, y compris nous-mêmes.
We go now to classes and we learn how to make our plasma and we're putting it in our house and our gardens and altering the environment that we live in that could contribute to cancer.	Nous assistons aux cours et nous apprenons comment fabriquer notre plasma. Nous le mettons dans notre maison et nos jardins et modifions l'environnement, dans lequel nous vivons, qui a pu contribuer au cancer.

KF PLASMA TIMES | KF SSI EDUCATION PROCESSING TEACHING MATERIALS Since its inception, The Keshe Foundation is aiming to spread the new knowledge around the globe. Its founder, Mehran Tavakoli Keshe, was aware in the early stages that without proper knowledge transfer there will be no wide adoption of new science and technology. Part of his time is still devoted to teaching. Teachings were conducted in many ways until the crucial point years ago which led to the launch of weekly online public teachings. Since then online teachings did not stop but only expanded. He thought us to expand the process into all the languages as fast as possible overcoming the last communication barrier that humanity faces on this planet whenever the knowledge needs to spread fast around. He started international public teachings for Spanish, Chinese and many other language communities. The road was paved. One of the next greatest milestones was the establishment of "KF SSI Education" which took the role of further developments implementing founder's initial vision. Besides expansion of public teachings into many languages, it gave birth to private teachings and years later to special more directed study programs. All these programs are daily producing gigabytes of valuable recordings which are not to be sitting there just for archiving purpose proving the history but to be  WWW.KESHEFOUNDATION.ORG 16	KF PLASMA TIMES | KF SSI EDUCATION PROCESSING TEACHING MATERIALS 
Processing Teaching Materials	**Préparation du Matériel Éducatif**
Since its inception, The Keshe Foundation is aiming to spread the new knowledge around the globe. Its founder, Mehran Tavakoli Keshe, was aware in the early stages that without proper knowledge transfer there will be no wide adoption of new science and technology. Part of his time is still devoted to teaching.	Depuis sa création, la Fondation Keshe vise à diffuser les nouvelles connaissances à travers le monde. Son fondateur, Mehran Tavakoli Keshe, savait dès le début que, sans un transfert de connaissances correct, il n'y a pas de large adoption des nouvelles sciences et technologies. Une partie de son temps est encore consacrée à l'enseignement.
Teachings were conducted in many ways until the crucial point years ago which led to the launch of weekly online public teachings. Since then online teachings did not stop but only expanded.	Les enseignements étaient donnés de différentes manières, jusqu'au lancement, voici quelques années, des enseignements publics hebdomadaires, diffusés en ligne. Depuis, les enseignements n’ont jamais cessé et se sont même développés.
He thought us to expand the	Il a pensé étendre le processus à

process into all the languages as fast as possible overcoming the last communication barrier that humanity faces on this planet whenever the knowledge needs to spread fast around. He started international public teachings for Spanish, Chinese and many other language communities. The road was paved.	toutes les langues, très rapidement, surmontant ainsi la dernière barrière de communication, à laquelle l'humanité est confrontée sur cette planète, quand les connaissances doivent se propager rapidement. Il a commencé les enseignements publics internationaux pour l'Espagnol, le Chinois et autres communautés linguistiques. La route était tracée.

One of the next greatest milestones was the establishment of "KF SSI Education" which took the role of further developments implementing founder's initial vision. Besides expansion of public teachings into many languages, it gave birth to private teachings and years later to special more directed study programs.	L'une des étapes les plus importantes a été la création de la ‘’KF SSI Éducation’’ qui assure le rôle des développements futurs, en mettant en œuvre la vision initiale du fondateur. Outre l'expansion des enseignements publics dans de nombreuses langues, il donné naissance aux enseignements privés et, plus tard, aux programmes d'études spéciaux plus orientés.
All these programs are daily producing gigabytes of valuable recordings which are not to be sitting there just for archiving purpose proving the history but to be	Ces programmes génèrent quotidiennement des Giga octets d’enregistrements précieux, qui ne doivent pas être là, simplement à des fins d’archivage prouvant l’histoire, mais être
Page 17 **KF SSI EDUCATION**	**Page 17** **KF SSI EDUCATION**

watched, analyzed, thoroughly studied as many times as possible. Yes, one time is not enough. Find out why!

For the benefit of those joining us in recent time, one thing needs to be pointed out. These recordings contain hours of precious teachings delivered by the founder himself - one of the greatest scientists this planet ever had. He delivered months of teachings, minimum two times three hours per day. And yet another advice: do not limit yourself to how many times you watch each of his teachings. It is a never-ending process. Coming back to the same teaching with a different level of maturity may reward you with discovering the next layer of understanding necessary to make further progress.

And this is the reason why we all need to join the efforts and with proper processing of all teaching materials bringing them to the next level of usability speeding up the learning process for the whole planet.

Majority of the teachings were initially held in the English language. With time the programs and the language communities have grown, reaching to present day on a total of over 8000 hours of teachings all directly or indirectly related to the Keshe Plasma Science and Technology, spanned over 3000 recordings. Given the increased number of hours and video files, keeping up with where to start and what to listen first has become a very difficult task for the new knowledge seekers. We are all approaching the teaching platforms with different level of knowledge and intention what to learn.

The Keshe Foundation needs your help to offer an easier, better way of accessing the information for anyone interested to learn more, to discover the beauty of the new science for humanity. The new science which will bring long awaiting peace on Earth and the union of the Soul of the Man with the Universal Community.

Besides known efforts adding subtitles in all the languages to all recordings, we have now started also the Indexing Campaign. What would that mean? How can you contribute?

Indexes will bring the compartmentalization of all recordings creating timestamps in all teachings to define (by MP4 standard format) the chapters of each recording. Such timestamps enable us to jump fast to the desired topic and continue watching the recording saving on precious time, staying more focused on the study topic itself.

These indexes will also enrich or refine search engine results, once Google-like search becomes available as planned for one of the future replacements of current education site. There are many ways how to create the index. It can be created as part of the study process or by intentional fast reviewing of recording.

Subtitles can be used as well for faster pinpointing of the topics. Not to guess how to name the certain topic, KF SSI Education has made available the initial list of topics that have appeared in the teachings so far and shall be continued to be identified unique way.

The list can be found at the following link altogether with the indexing instructions available as video tutorial:
https://keshefoundation.org/education/news/processing-teaching-materials

Time (hh:mm:ss.sss)	Chapter name

Anyone can contribute. Do it from home, a cafe bar, even from the bench in the park by listening on your mobile device, writing down the timestamp as "HH:MM:SS" where topic begins, identifying its name from the list made available. This is it! The list of timestamps + topic per each recording. It can be entered as text into your computer or written on the paper, simply scanned or photo'd. However, done, in the end, please send such index to index@kfssi.org with the strict name of the recording file it belongs to. Your index will be processed by KF SSI Education and appear in future releases of education site. The overall progress of this campaign will be possible to follow up initially on keshefoundation.org and later on websites of KF SSI Education.

KF PLASMA TIMES

watched, analyzed, thoroughly studied as many times as possible. Yes, one time is not enough. Find out why!

For the benefit of those joining us in recent time, one thing needs to be pointed out. These recordings contain hours of precious teachings delivered by the founder himself - one of the greatest scientists this planet ever had. He delivered months of teachings, minimum two times three hours per day. And yet another advice: do not limit yourself to how many times you watch each of his teachings. It is a never-ending process. Coming back to the same teaching with a different level of maturity may reward you with discovering the next layer of understanding necessary to make further progress.

And this is the reason why we all need to join the efforts and with proper processing of all teaching materials bringing them to the next level of usability speeding up the learning process for the whole planet.

Majority of the teachings were initially held in the English language. With time the programs and the language communities have grown, reaching to present day on a total of over 8000 hours of teachings all directly or indirectly related to the Keshe Plasma Science and Technology, spanned over 3000 recordings. Given the increased number of hours and video files, keeping up with where to start and what to listen first has become a very difficult task for the new knowledge seekers. We are all approaching the teaching platforms with different level of knowledge and intention what to learn.

The Keshe Foundation needs your help to offer an easier, better way of accessing the information for anyone interested to learn more, to discover the beauty of the new science for humanity. The new science which will bring long awaiting peace on Earth and the union of the Soul of the Man with the Universal Community.

Besides known efforts adding subtitles in all the languages to all recordings, we have now started also the Indexing Campaign. What would that mean? How can you contribute?

Indexes will bring the compartmentalization of all recordings creating timestamps in all teachings to define (by MP4 standard format) the chapters of each recording. Such timestamps enable us to jump fast to the desired topic and continue watching the recording saving on precious time, staying more focused on the study topic itself.

These indexes will also enrich or refine search engine results, once Google-like search becomes available as planned for one of the future replacements of current education site. There are many ways how to create the index. It can be created as part of the study process or by intentional fast reviewing of recording.

Subtitles can be used as well for faster pinpointing of the topics. Not to guess how to name the certain topic, KF SSI Education has made available the initial list of topics that have appeared in the teachings so far and shall be continued to be identified unique way.

The list can be found at the following link altogether with the indexing instructions available as video tutorial:
https://keshefoundation.org/education/news/processing-teaching-materials

Time (hh:mm:ss.sss) | Chapter name

Anyone can contribute. Do it from home, a cafe bar, even from the bench in the park by listening on your mobile device, writing down the timestamp as "HH:MM:SS" where topic begins, identifying its name from the list made available. This is it! The list of timestamps + topic per each recording. It can be entered as text into your computer or written on the paper, simply scanned or photo'd. However, done, in the end, please send such index to index@kfssi.org with the strict name of the recording file it belongs to. Your index will be processed by KF SSI Education and appear in future releases of education site. The overall progress of this campaign will be possible to follow up initially on keshefoundation.org and later on websites of KF SSI Education.

watched, analyzed, thoroughly studied as many times as possible. Yes, one time is not enough. Find	regardés, analysés, étudiés en profondeur autant de fois que possible. Oui, une seule fois ne suffit

out why!	pas. Trouvez pourquoi !
For the benefit of those joining us in recent time, one thing needs to be pointed out. These recordings contain hours of precious teachings delivered by the founder himself - one of the greatest scientists this planet ever had. He delivered months of teachings, minimum two times three hours per day. And yet another advice: do not limit yourself to how many times you watch each of his teachings. It is a never-ending process. Coming back to the same teaching with a different level of maturity may reward you with discovering the next layer of understanding necessary to make further progress.	Pour le bénéfice de ceux, qui se sont joints à nous récemment, une chose est à souligner. Ces enregistrements contiennent des heures d’enseignements précieux, dispensés par le fondateur lui-même, l'un des plus grands scientifiques que cette planète ait connus. Des mois d'enseignement, au minimum deux fois, trois heures par jour. Ne limitez pas le nombre de visionnages de chacun des enseignements. C'est un processus sans fin. Revenir au même enseignement, avec un niveau de maturité différent, vous récompensera. Vous découvrirez, de cette façon, la couche suivante de compréhension, nécessaire pour progresser davantage.
And this is the reason why we all need to join the efforts and with proper processing of all teaching materials bringing them to the next level of usability speeding up the learning process for the whole planet. Majority of the teachings were initially held in the English language. With time the programs and the language communities have grown, reaching to present day on a total of over 8000 hours of teachings all directly or indirectly related to the Keshe Plasma Science and Technology, spanned over 3000 recordings.	C'est la raison pour laquelle nous devons tous joindre nos efforts, pour apporter un matériel pédagogique adapté, l’amener à un niveau supérieur, afin d’accélérer le processus d'apprentissage de toute la planète. La plupart des enseignements étaient initialement dispensés en anglais. Avec le temps, les programmes et les communautés linguistiques se sont développés. À ce jour, un total de plus de 8000 heures d'enseignement, directement ou indirectement liés à la Science et à la Technologie Plasma de M.T.Keshe, et plus de 3000 enregistrements.
Given the increased number of hours and video files, keeping up with where to start and what to listen first has become a very difficult task for the new knowledge seekers. We are all approaching the	Du fait de l'augmentation du nombre d'heures et de fichiers vidéo, il est très difficile pour les nouveaux knowledge seekers de savoir par où commencer et quoi écouter en premier. Nous arrivons

teaching platform with different level of knowledge and intention what to learn. The Keshe Foundation needs your help to offer an easier, better way of accessing the information for anyone interested to learn more, to discover the beauty of the new science for humanity. The new science which will bring long awaiting peace on Earth and the union of the Soul of the Man with the Universal Community.	sur la plate-forme d'enseignement, avec des niveaux de connaissances et des objectifs différents. La Fondation Keshe a besoin de votre aide, afin d'offrir un moyen plus facile d'accès à l'information, pour que chaque personne, souhaitant en savoir plus, découvre la beauté de la nouvelle science pour l'humanité. La nouvelle science, qui apportera la paix tant attendue sur Terre et l'union de l'Âme de l'Homme avec la Communauté Universelle.
Besides known efforts adding subtitles in all the languages to all recordings, we have now started also the Indexing Campaign. What would that mean? How can you contribute? Indexes will bring the compartmentalization of all recordings creating timestamps in all teachings to define (by MP4 standard format) the chapters of each recording. Such timestamps enable us to jump fast to the desired topic and continue watching the recording saving on precious time, staying more focused on the study topic itself.	En plus des efforts, pour ajouter des sous-titres dans toutes les langues sur l'ensemble des enregistrements, nous avons commencé une campagne d'indexation. Qu'est-ce que cela signifie ? Comment contribuer ? Les index apportent la segmentation des enregistrements, avec des horodatages pour définir (au format standard MP4) les chapitres de chaque enregistrement. Ces horodatages permettent de passer rapidement au sujet souhaité et ainsi regarder l'enregistrement, en économisant un temps précieux, en restant plus concentré sur le sujet d'étude lui-même.
These indexes will also enrich or refine search engine results, once Google-like search becomes available as planned for one of the future replacements of current education site. There are many ways how to create the index. It can be created as part of the study process or by intentional fast reviewing of recording. Subtitles can be used as	Ces index enrichiront et affineront également les résultats des moteurs de recherche, quand cela sera disponible, comme prévu pour les évolutions à venir du site éducatif actuel. Il existe plusieurs façons de créer l'index. Il peut être créé, à travers le processus d'étude, ou en visionnant de manière accélérée l'enregistrement. Les sous-titres

well for faster pinpointing of the topics. Not to guess how to name the certain topic, KF SSI Education has made available the initial list of topics that have appeared in the teachings so far and shall be continued to be identified unique way.	peuvent aussi être utilisés pour un repérage des sujets. Pour faciliter le choix du nom, affecté à certain sujet, la KF SSI Éducation a établi une liste initiale de sujets, qui sont apparus dans les enseignements à ce jour et qui seront identifiés de manière unique.
The list can be found at the following link altogether with the indexing instructions available as video tutorial: https://keshefoundation.org/education/news/kf-ssi-education/processing-teaching-materials	La liste peut être trouvée sur le lien suivant, avec les instructions d'indexation, disponibles sous forme de tutoriel vidéo: https://keshefoundation.org/education/news/kf-ssi-education/processing-teaching-materials
Anyone can contribute. Do it from home, a cafe bar, even from the bench in the park by listening on your mobile device, writing down the timestamp as "HH:MM:SS" where topic begins, identifying its name from the list made available. This is it! The list of timestamps + topic per each recording. It can be entered as text into your computer or written on the paper, simply scanned or photo'd. However, done, in the end, please send such index to index@kfssi.org with the strict name of the recording file it belongs to.	Tout le monde peut contribuer. De la maison, d'un café-bar, même depuis le banc du parc en écoutant sur votre téléphone, en notant l'horodatage ''HH : MM : SS'' où le sujet commence, en identifiant son nom, dans la liste à disposition. La liste des horodatages + le sujet, pour chaque enregistrement, peut être saisi, en format texte sur votre ordinateur ou écrit sur papier, simplement numérisé ou photographié. Ensuite, vous envoyez cet index à index@kfssi.org avec le nom exact du fichier d'enregistrement auquel il appartient.
Your index will be processed by KF SSI Education and appear in future releases of education site. The overall progress of this campaign will be possible to follow up initially on keshefoundation.org and later on websites of KF SSI Education.	Votre index sera traité par la KF SSI Éducation et apparaîtra dans les futures versions du site de formation. L'avancement global de cette campagne sera visible dans un premier temps sur keshefoundation.org puis sur les sites Internet de la KF SSI Éducation.

Magravs Alkalizer & Energizer **CE Certified Medical Device Class I**	**MAGRAVS Alcalinisant & Énergisant** **Dispositif médical certifié CE de classe I**
PRODUCT FEATURES:	CARACTÉRISTIQUES DU PRODUIT:
• Bohemian Crystal carafe • Without filters or spare parts • Without batteries or other reagents • The Magravs system is contained in a glass cylinder • It is the world’s first portable system that energizes and alkalizes water without getting into contact with it and without ever deteriorating. • Equally works well with other types of glass or plastic container. • Easily transportable and can as well be used with the carafe directly immerse in a plastic bottle. • Carafe dimensions: (cm) 28x16x18 Weight: (Kg) 1,2 • Sealed cylinder dimensions (cm) 22x15x5 Weight:(Kg) 0,250	• Carafe en Cristal de Bohème. • Sans filtres, ni pièces de rechange. • Sans piles, ni autres réactifs. • Le système MaGrav est contenu dans un cylindre de verre. • C'est le premier système portable au monde permettant d'énergiser et alcaliniser l'eau, sans entrer en contact avec elle et sans jamais la détériorer. • Il fonctionne également avec d'autres types de récipients en verre ou en plastique. • Il est facilement transportable et peut aussi être utilisé, avec la carafe directement immergée dans une bouteille en plastique. • Dimensions de la carafe : 28x16x18 cm

	Poids : 1,2 kg • Dimensions du cylindre scellé : 22x15x5 cm Poids : 0,250 kg
USAGE:	UTILISATION:
Fill the carafe with water and let the Magravs system act. The system is found at the center of the container in a sealed plastic cylinder which is not openable. Once you've left it to act for more or less 24 hours, you will see the PH increase up to +1 level on the PH scale, in comparison to the initial PH of your water. The PH of the water can be measured using a PH meter.	Remplissez la carafe d'eau et laissez le système MaGrav agir. Le système se trouve au centre du récipient, dans un cylindre en plastique scellé, qui ne peut être ouvert. Après l'avoir laissé agir plus ou moins 24 heures, vous notez une augmentation du PH jusqu'au niveau +1 sur l'échelle du PH, par rapport au PH initial de votre eau. Le PH de l'eau peut être mesuré à l'aide d'un PH-mètre.
Water only gets into contact with the outer part of the Magravs cylinder. The carafe is made of Bohemian crystal and the cylinder equally works well with other glass or plastic containers.	L'eau entre en contact uniquement avec la partie extérieure du cylindre MaGrav. La carafe est en cristal de Bohème et le cylindre peut être utilisé avec d'autres récipients en verre ou en plastique.
The cylinder must never be completely immersed in water. The water in the carafe or the bottle must not exceed the sealing cap of the cylinder. After 24 hours, transfer the water to another container and drink 1.5/2 liters of alkaline water per day. Drink the water early in the morning, and half an hour before or two and a half hours after the main meals.	Le cylindre ne doit jamais, être complètement immergé dans l'eau. L'eau contenue dans la carafe ne doit pas dépasser le niveau du bouchon. Après 24 heures, transvasez l'eau dans un autre récipient et buvez 1,5/2 litres d'eau alcaline par jour. Buvez l'eau tôt le matin, et une demi-heure avant ou deux heures et demie après les principaux repas.
Drinking water energized and alkalized in this way allows our body to become less acidic and absorb more oxygen. Just after a day of drinking this water, it gives wellness and energy to the body.	Boire une eau énergisée et alcalinisée de cette façon, permet au corps de devenir moins acide et d'absorber plus d'oxygène. En absorbant cette eau, le corps retrouve bien-être et énergie.

GERMAN
SPEAKING COMMUNITY
UNITED!

In August 2018, german speaking Knowledgeseekers decided to join and rename the Keshe Foundation Austria to Keshe Foundation Deutschsprachig, which stands for Keshe Foundation German language. This happened during an official general assembly of the association, where this decision was accepted in an online voting unanimously.

The initial number of copies of the leaflet is 5000 and is currently being spread around the area of Germany, Switzerland, Austria as well as in areas around the world, where German speaking people are living. The printing costs of the leaflet are financed by the Knowledge seekers.

The Keshe Foundation Deutschsprachig is motivated to develop strategies, which are in line with the ethos of the Keshe Foundation and which support the German speaking and other areas around the world. The Keshe Foundation Deutschsprachig is furthermore looking forward, working closely together with all local Keshe Foundations and is ready to implement the strategies of the Keshe Foundation, the Universal Council and the Earth Council.

Keshe Foundation Knowledge seekers stated, that they have a "home" now and they immediately started setting up different project groups. The president of the Keshe Foundation Deutschsprachig, Mehran Tavakoli Keshe, stated that this movement is in line with the strategies of the Universal Council and gave his approval for the change.

One of the first projects was the creation of a general leaflet, which contains a brief introduction to the Keshe Foundation and information on how to join Keshe Foundation Deutschsprachig. Furthermore, the leaflet defines the common aim, which is world peace.

Introduction	**Introduction**
The origin of this paper is based on the first video, which were released by the Keshe Foundation about how simply the radiation and the radioactive contamination in the farms and the environment around the disaster zone of the Fukushima area was shown to be decontaminated, by the use of new materials developed by the M. T. Keshe.	Cet article est basé sur la première vidéo, publiée par la Fondation Keshe, montrant la façon dont les radiations et la contamination radioactive dans les fermes et l'environnement, autour de la zone sinistrée de la région de Fukushima, ont été décontaminées, grâce à l'utilisation de nouveaux matériaux développés par M. T. Keshe.

This, after the tsunami of the 2011, after three years can be resolved, simply by the use of basic materials, farmers on their own and by the community can clean up the environment, rather than with the help of the governmental organizations. The video is available at https://www.youtube.com/watch?v=4f02CcnHjSk	Trois ans après le tsunami de 2011, ce problème peut être résolu par la simple utilisation de matériaux de base. Les agriculteurs, ainsi que la communauté, peuvent nettoyer l'environnement par eux-mêmes, plutôt qu'avec l'aide des organisations gouvernementales. La vidéo est disponible à l'adresse suivante : https://www.youtube.com/watch?v=4f02CcnHjSk
Experiments	**Expériences**
One of our Knowledge seekers performed a series of experiments with decontamination of radioactive materials using procedures developed by Keshe Foundation and materials prepared by us in its Spaceship Institute in Italy. We were connected with and helping her during this experiments over Skype calls. Gamma ray detectors were used. These shortcuts are used for physical quantities: • A [Bq] … radioactivity, counts of decayed particles per second • S [Bq / kg] … specific radioactivity, radioactivity per unit weight Measured values in ( ) brackets are under measurable threshold of the detectors. Numbers in [ ] brackets refer to attached measurements.	Un Knowledge seekers a réalisé une série d'expériences de décontamination de substances radioactives, utilisant des procédures élaborées par la Fondation Keshe et des matériaux préparés par le Spaceship Institute en Italie. Nous étions en contact avec lui et l'avons aidé durant ces expériences, à travers Skype. Des détecteurs de rayons gamma ont été utilisés. Ces raccourcis sont utilisés pour les quantités physiques : - A [Bq] radioactivité, nombre de particules désintégrées par seconde. - S [Bq / kg] radioactivité spécifique, radioactivité par unité de poids. Les valeurs mesurées entre parenthèses (...) sont inférieures au seuil mesurable des détecteurs. Les nombres entre parenthèses [...] font référence aux mesures indiquées en annexe.
Experiment in food assurance company in Fukushima Region	**Expérience dans une compagnie de contrôle alimentaire dans la région de Fukushima**
Sample 1, March 29, 2014 Contaminated radioactive soil from a rice field. The soil in a box was soaked with well water (Table 1) and few drops of detergent (to allow better release of radioactive elements into the water) and stirred well (Figure 1).	Échantillon 1 - 29 mars 2014 Terre radioactive contaminée d'une rizière. La terre est imbibée d'eau de source

Sample 2, March 31 – April 3, 2014
Contaminated radioactive water extracted from a rice field soil with the help of iron [...]

EXPERIMENT IN NPO IN FUKUSHIMA CITY

Sample 1, March 30, 2014
Contaminated radioactive soil from a roof gutter [...]

Sample 2
Contaminated radioactive water [...]

EXPERIMENTS SUMMARY

Over the measured period of time, all methods showed decreased values of radioactivity in the samples. This decrease was caused by direct transformations of the radioactive material and not by separating the radioactive material by any method of absorption out of the samples (except the cases with nanolayer filters of course). These experimental verifications of the decontamination technology have to be further developed in cooperation with people willing to take part in the global clean up. We are here to help in this process and learn more together to achieve simple real world application of the disclosed decontamination process.

KNOWLEDGE GAINED

[...]The conclusion from the development of new materials and their use in the contaminated environment of Fukushima and any other reactive environment, like a nuclear waste disposal and storage is as follows:

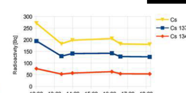

1. All radioactive contaminated environments and materials can be made fully and permanently radiation safe.
2. The new process of decontamination can bring about new opportunities to convert the radioactive materials to useful and applicable materials, which can be used for scientific development, agricultural use, and energy production for conversion of matters.
3. These tests have shown without a shadow of a doubt that the Japanese Fukushima disaster of 2011 can be used to the advantage of the nation and not as it looks, as a disadvantage and a financial burden.
4. All underground storage facilities and nuclear waste problems of today can be solved with little effort and little cost by the use of these new materials, and there is no need for these heavy radioactive materials to be kept in storage for hundreds of years for them to be less radioactive, now one can safely use the

Experiments Summary	**Résumé des experiences**
Over the measured period of time, all methods showed decreased values of radioactivity in the samples. This decrease was caused by direct transformations of the radioactive material and not by separating the radioactive material by any method of absorption out of the samples (except the cases with nanolayer filters of course). These experimental verifications of the decontamination technology have to be further developed in cooperation with people willing to take part in the global clean up. We are here to help in this process and learn more together to achieve simple real-world application of the disclosed decontamination process.	Durant la période de l'étude, toutes les méthodes ont démontré une diminution de la radioactivité dans les échantillons. Cette diminution résulte des transformations directes du matériau radioactif. Et non pas, à cause de la libération du matériau radioactif des échantillons, par quelque méthode d'absorption que ce soit (hormis les cas, où des filtres nano ont été utilisés). Ces essais expérimentaux de la technologie de décontamination, doivent être développés, en coopération avec les personnes désirant participer au nettoyage mondial. Nous sommes ici pour aider et apprendre plus, ensemble, afin de parvenir à une application simple du processus de décontamination dans le monde réel.
Knowledge gained	**Connaissances acquises**

[…] The conclusion from the development of new materials and their use in the contaminated environment of Fukushima and any other reactive environment, like a nuclear waste disposal and storage is as follows: 1. All radioactive contaminated environments and materials can be made fully and permanently radiation safe. 2. The new process of decontamination can bring about new opportunities to convert the radioactive materials to useful and applicable materials, which can be used for scientific development, agricultural use, and energy production for conversion of matters. 3. These tests have shown without a shadow of a doubt that the Japanese Fukushima disaster of 2011 can be used to the advantage of the nation and not as it looks, as a disadvantage and a financial burden. 4. All underground storage facilities and nuclear waste problems of today can be solved with little effort and little cost by the use of these new materials, and there is no need for these heavy radioactive materials to be kept in storage for hundreds of years for them to be less radioactive, now one can safely use the	[...] La conclusion à tirer du développement de nouveaux matériaux et de leur utilisation dans un environnement contaminé, que ce soit Fukushima ou tout autre endroit radioactif, tels les sites de stockage de déchets nucléaires, est la suivante : 1. Tous les environnements et matériaux contaminés, peuvent être entièrement et durablement libérés de la radioactivité. 2. Le nouveau processus de décontamination peut offrir de nouvelles possibilités de conversion des matériaux radioactifs, en matériaux utiles et exploitables, pour le développement scientifique, pour l'agriculture et pour la production d'énergie. 3. Ces tests ont montré, sans l'ombre d'un doute, que la catastrophe japonaise de Fukushima de 2011 peut être utilisée à l'avantage de la nation et non pas comme un handicap et une charge financière. 4. Tous les problèmes actuels de stockage souterrain et de déchets nucléaires peuvent être désormais résolus, avec peu d'efforts et à peu de frais, à travers l'utilisation de ces nouveaux matériaux. Il n'est pas nécessaire de stocker ces matériaux radioactifs lourds, pendant des centaines d'années, pour les rendre moins radioactifs. On peut maintenant utiliser en toute

by CO_2 GANS liquid plasmas. In Kenya, oats plants that were exposed to fields of bottled CO_2 liquid plasma grew faster, matured earlier, were healthier, and had a darker green color than oat plants that were not exposed to CO_2 liquid plasma magnetic gravitational fields.

Effects of CO_2 GANS magnetic gravitational fields on growth of oats: Oats seeds were soaked for 3 hours before sowing on 2/28/17. These pictures were taken on 3/25/17 (left), and 8/6/17 (right).

CHANGES TO SOIL PH WITH CO_2 LIQUID PLASMA ENHANCES CROP ADAPTATION AND GROWTH

Irrigation of crops with CO2 GANS liquid plasma increases alkalinity in soils resulting in increased soil pH. Increased soil pH, in turn, supports the growth of plants that are usually well suited for alkaline soils in areas with acidic soils. An ongoing study in an area with acidic soils in Kenya has shown vigorous growth and successful seeding of Medicago rigidula plants. Medicago rigidula usually grows in Mediterranean type climates that have alkaline soils.

Vigorously growing Medicago rigidula plants with seed pods in Kenya. Plants were sown on 1/27/17, and the picture was taken on 8/10/17.

EFFECTS OF CO_2 GANS ON CROP DISEASES AND PESTS

For plant diseases, CO_2 GANS liquid plasma creates conditions in the plant environment under which those diseases cannot exist. For example, CO_2 GANS patches have been successfully used against diseases as well as plants' physical injuries. For crop pests, application of CO_2 GANS liquid plasma creates conditions under which the pests do not damage crops. In addition, pests also absorb the energy of the applied CO_2 GANS liquid plasma. Such pests have little or no need of feeding on the crops, thus the application of CO_2 GANS liquid plasma creates conditions that benefit both the crops and their erstwhile pests.

EFFECTS OF CO2 LIQUID PLASMA ON CROPS AND THE ENVIRONMENT

CO_2 GANS are increasingly used to transform agriculture and environmental management practices across the world. While CO_2 GANS liquid plasma is now widely used to decontaminate seeds and for irrigating field crops, it has also been shown to clean the environment in new ways. A study in a hydroponic farm in Australia found that bottles with CO_2 GANS liquid plasma that were placed in pipes channeling chemical nutrients for plants attracted and held the smell of the chemicals within, and thus cleaned the crop environment. The smell was only noticed when the CO_2 liquid plasma bottles were opened, showing that CO_2 GANS liquid plasma has great potential for environmental clean-up for not only crop environments but also for polluted cities and other such environments.

by CO_2 GANS liquid plasmas. In Kenya, oats plants that were exposed to fields of bottled CO_2 liquid plasma grew faster, matured earlier, were healthier, and had a darker green color than oat plants that were not exposed to CO_2 liquid plasma magnetic gravitational fields.

Effects of CO_2 GANS on crop diseases and pests For plant diseases, CO_2 GANS liquid plasma creates conditions in the plant environment under which those diseases cannot exist. For example, CO_2 GANS patches have been successfully	Effets du GANS CO_2 sur les maladies et parasites Pour les maladies des plantes, le plasma liquide du GANS CO_2 crée dans l'environnement de la plante, des conditions où ces maladies ne peuvent exister. Ainsi, des patchs GANS CO_2 ont

used against diseases as well as plants' physical injuries. For crop pests, application of CO_2 GANS liquid plasma creates conditions under which the pests do not damage crops. In addition, pests also absorb the energy of the applied CO_2 GANS liquid plasma. Such pests have little or no need of feeding on the crops, thus the application of CO_2 GANS liquid plasma creates conditions that benefit both the crops and their erstwhile pests.	été utilisés avec succès, face à des maladies et lésions physiques des plantes. Pour les parasites, l'application de plasma liquide GANS CO_2 crée des conditions, où les parasites n'endommagent pas les cultures. De plus, les parasites absorbent également l'énergie du plasma liquide de GANS CO_2 appliqué. Ces parasites n'ont pas ou peu besoin de se nourrir des cultures. L'application du plasma liquide GANS CO_2 crée ainsi des conditions qui profitent, à la fois aux cultures et à leurs anciens parasites.
Effects of CO_2 liquid plasma on crops and the environment CO_2 GANS are increasingly used to transform agriculture and environmental management practices across the world. While CO_2 GANS liquid plasma is now widely used to decontaminate seeds and for irrigating field crops, it has also been shown to clean the environment in new ways. A study in a hydroponic farm in Australia found that bottles with CO_2 GANS liquid plasma that were placed in pipes channeling chemical nutrients for plants attracted and held the smell of the chemicals within, and thus cleaned the crop environment. The smell was only noticed when the CO_2 liquid plasma bottles were opened, showing that CO_2 GANS liquid plasma has great potential for environmental clean-up for not only crop environments but also for polluted cities and other such environments.	Effets du plasma liquide de CO_2 sur les cultures et l'environnement Les GANS CO_2 sont de plus en plus utilisés, pour faire évoluer l'agriculture et les modes de gestion environnementale à travers le monde. Le plasma liquide GANS de CO_2 est largement utilisé pour décontaminer les semences et irriguer les cultures de plein champ. Il assainit l'environnement de manière innovante. Une étude menée dans une ferme hydroponique en Australie, a montré que des flacons, remplis de plasma liquide GANS CO_2, placés dans des conduites amenant des fertilisants chimiques pour les plantes, absorbaient et retenaient l'odeur des produits chimiques à l'intérieur, nettoyant ainsi l'environnement. L'odeur a été perçue, au moment de l'ouverture des flacons de plasma liquide CO_2. Le fort pouvoir de purification du plasma liquide GANS CO_2 est ainsi démontré, aussi bien pour les cultures, que pour les villes et autres environnements pollués.

KF PLASMA TIMES | PLASMA SCIENTIFIC JOURNAL EFFECTS OF CO2, CH3 AND CuO LIQUID PLASMAS ON EARLY SEEDLING GROWTH OF OATS AND MAIZE  BY GATUA WA MBUGWA, PH.D. - MAY – JUNE 2016 INTRODUCTION Liquid plasma experiments conducted in Kenya in May and June 2016. These experiments assessed oats (Avena sativa) and maize (Zea mays) percent seed germination and early seedling growth. TREATMENTS Experiment 1. Oats: H_2O and CO_2 liquid plasma. Experiment 2. Oats and Maize: H_2O and CO_2 liquid plasma. Experiment 3. Oats: H_2O, CO_2 CH_3, and CuO liquid plasmas. All experiments took 21 days from sowing to data collection. SEED GERMINATION METHOD Experimental seeds were set in paper plates (exp. 1) and in plastic containers (exp. 2 & 3) and irrigated with their respective treatments (H_2O or one of the thee liquid plasmas). Irrigation was 10 to 20 ml of the substrate using a plastic syringe, which was continued as needed until DODC. EXPERIMENTAL DESIGN Treatments were assigned in a randomized complete block design (RCBD). Treatments were replicated 4 times. DATA COLLECTION Germinated seeds in each experiment were counted to determine relative % germination rates for the experiments. Further, shoots and roots of experimental seedlings were measured, and their lengths compared to determine their relative early growth. For shoots and roots length, means of all 4 replicates in each experiment were calculated and are presented as the results of the three experiments. EXPERIMENT 2: OATS AND MAIZE SEEDLINGS

EXPERIMENT 3: CO_2, CH_3 and CuO GANS

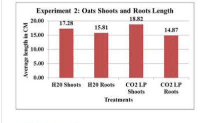

EXPERIMENTAL RESULTS

Results for Experiment 1: Oats (Avena sativa). H_2O and CO_2 Liquid Plasma treatments.

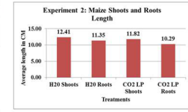

No significant differences in relative shoots and roots length between H_2O and CO_2 Liquid Plasma treatments.

Results for Experiment 2: Oats (Avena sativa) and Maize (Zea mays) with H_2O and CO_2 Liquid Plasma treatments.

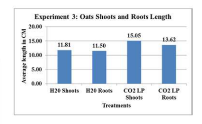

No significant differences in relative shoots and roots length between H2O and CO2 Liquid Plasma treatments.

Results for Experiment 2: Oats (Avena sativa) and Maize (Zea mays) with H_2O and CO_2 Liquid Plasma treatments.

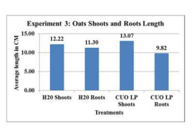

No significant differences in relative shoots and roots length between H_2O and CO_2 Liquid Plasma treatments.

Results for Experiment 3: Oats (Avena sativa) with H_2O, CO_2, CH_3, and CuO LP treatments.

Significant differences in shoots and roots length between H_2O and CO_2 Liquid Plasma treatments.

No significant differences in relative shoots and roots length between H_2O and CuO Liquid Plasma treatments.

EXPERIMENTAL RESULTS: PERCENT GERMINATION

Exp. 1 Oats: H_2O (100%) CO_2 LP (100%)
Exp. 2 Oats: H_2O (87.5%) CO_2 LP (87.5%)
Exp. 2 Maize: H_2O (75%) CO_2 LP (75%)

Significant differences in seed % germination between H_2O and LP treatments within CO_2 and CH_3 treatments in experiment 3.

SUMMARY OF EXPERIMENTAL RESULTS

There were no significant differences in both % seed germination and seedling growth in experiment 1 and 2

In experiment 3, CO_2 and CH_3 LP treatments showed superior % seed germination and superior mean seedling growth for both shoots and roots, while CuO treatment did not show any significant differences.

DISCUSSION AND CONCLUSION

It was generally noted that while experiment one had 100% germination rate, both experiment 2 and 3 recorded lower seed germination rates of approximately 80% and 70% for experiments 2 and 3 respectively.

This poor germination rate may have adversely affected mean seedling length in Exp. 2 & 3. It was further noted that the 100% germination occurred in experiment 1, where seeds were sown in open (flat) paper plates.

The seeds sown in plastic containers in exp. 2 and 3 may have reduced their germination rate to avoid overcrowding in their containers, indicating that plants intelligently adapt to environmental conditions.

 No significant differences in relative shoots and roots length between H_2O and CuO Liquid Plasma treatments.	 Aucune différence significative dans la longueur des pousses et des racines par rapport aux traitements avec H_2O et Plasma Liquide CuO.
Experimental Results Percent germination Exp. 1 Oats: H_2O (100%) CO_2 LP (100%) Exp. 2 Oats: H_2O (87.5%) CO_2 LP (87.5%) Exp. 2 Maize: H_2O (75%) CO_2 LP (75%) No significant differences in seed % germination between H_2O and LP treatments within experiments 1 & 2 Percent germination Exp. 3: Oats: H_2O (65%) CO_2 LP (85%) Exp. 3: Oats: H_2O (63%) CH_3 LP (80%) Exp. 3: Oats: H_2O (68%) CuO_2 LP (65%) Significant differences in seed % germination between H_2O and LP treatments within CO_2 and CH_3 treatments in experiment 3.	Résultats expérimentaux Pourcentage de germination Exp. 1 Avoine : H_2O (100%) LP de CO_2 (100%) Exp. 2 Avoine : H_2O (87,5%) LP de CO_2 (87,5%) Exp. 2 Maïs : H_2O (75%) LP de CO_2 (75%) Pas de différences significatives dans le % de germination des graines, dans les traitements avec H_2O et LP au travers des expériences 1 & 2 Pourcentage de germination Exp. 3 : Avoine : H_2O (65%) LP de CO_2 (85%) Exp. 3 : Avoine : H_2O (63%) LP de CH_3 (80%) Exp. 3 : Avoine : H_2O (68%) LP de CuO_2(65%) Différences significatives de % de germination des graines avec H_2O et LP, dans les traitements avec CO_2 et CH_3 à travers l'expérience 3.
Summary of Experimental Results There were no significant differences in both % seed germination and seedling growth in experiment 1 and 2 In experiment 3, CO_2 and CH_3 LP treatments showed superior % seed germination and superior mean	Résumé des résultats expérimentaux Pas de différences significatives dans le % de germination des graines et la croissance des semis dans les expériences 1 et 2 Dans l'expérience 3, les traitements au LP de CO_2 et CH_3 ont montré un

seedling growth for both shoots and roots, while CuO_2 treatment did not show any significant differences.	pourcentage de germination supérieur, et une meilleure croissance, tant pour les pousses que pour les racines. Le traitement au CuO_2 n'a pas montré de différences significatives.
Discussion and Conclusion It was generally noted that while experiment one had 100% germination rate, both experiment 2 and 3 recorded lower seed germination rates of approximately 80% and 70% for experiments 2 and 3 respectively. This poor germination rate may have adversely affected mean seedling length in Exp. 2 & 3. It was further noted that the 100% germination occurred in experiment 1, where seeds were sown in open (flat) paper plates. The seeds sown in plastic containers in exp. 2 and 3 may have reduced their germination rate to avoid overcrowding in their containers, indicating that plants intelligently adapt to environmental conditions.	Discussion et Conclusion Alors que l'expérience 1 a un taux de germination de 100 %, les expériences 2 et 3 ont toutes deux enregistré des taux de germination de graines plus faibles, d'environ 80 % et 70 % respectivement, pour les expériences 2 et 3. Ce faible taux de germination a pu avoir un effet négatif sur la longueur moyenne des semis dans les Exp. 2 & 3. Il a aussi été noté que la germination à 100 % s'est produite dans l'expérience 1, où les graines ont été semées dans des assiettes en carton ouvertes (plates). Les graines semées, dans les boites en plastique, Exp. 2 et 3, ont réduit leur taux de germination, pour éviter la surpopulation dans leurs contenants. Les plantes s'adaptent ainsi avec intelligence aux conditions environnementales.

 BETTER SLEEP PATTERNS AFTER USING GANS PATCHES When I had my pain in the back, in the hip, because I covered the whole body, so from the back, basis of the back to the neck and in front the same. And I have seen that normally in the earlier years it was always the same thing; the older you get it's quite normal that you have to go up one time in the night to go to the toilet. So, then you can't sleep anymore the whole night. Your sleep is interrupted, you have to get up. And then I worked with the GANS patches and I felt I do not go to the toilet in the night anymore. But then I have maybe one year I didn't need to do anything, and I felt that it was coming back a little bit. So again, once in the night I had to go up and after I put these GANS patches on my back and in front. I realized again I can sleep the whole night without getting up. The sleep is not more interrupted, and I can sleep the whole night without having to get up one single time. https://youtu.be/SlN7DiCKEAg?t=59m39s From P.S. When I had my pain in the back, in the hip, because I covered the whole body, so from the back, basis of the back to the neck and in front the same. And I have seen that normally in the earlier years it was always the same thing; the older you get it's quite normal that you have to go up one time in the night to go to the toilet.	Quand je souffrais de mal de dos, de la hanche, cela couvrait tout le corps, du dos, de la base du dos jusqu'au cou, et pareil devant. J'ai constaté que, dans les dernières années, c'est toujours la même chose ; plus on vieillit, plus il est normal de se lever au moins une fois dans la nuit pour aller aux toilettes.
So, then you can't sleep anymore the whole night. Your sleep is interrupted, you have to get up.	Alors, vous ne dormez plus toute la nuit. Votre sommeil est interrompu, vous devez vous lever.
And then I worked with the GANS patches and I felt I do not go to the toilet in the night anymore. But then I have maybe one year I didn't need to do anything, and I felt that it was	Alors, j'ai travaillé avec les patchs GANS et j'ai senti que je n'allais plus aux toilettes la nuit. Mais ensuite, je suis restée peut-être un an sans rien faire, et j'ai senti que ça revenait un peu.

coming back a little bit. So again, once in the night I had to go up and after I put these GANS patches on my back and in front.	Alors de nouveau, une fois dans la nuit, je devais me relever. Alors, j'ai remis ces patchs GANS dans mon dos et sur le devant.
I realized again I can sleep the whole night without getting up. The sleep is not more interrupted, and I can sleep the whole night without having to get up one single time.	J'ai réalisé une fois de plus, que je pouvais dormir toute la nuit, sans me lever. Le sommeil n'est plus interrompu, et je peux dormir toute la nuit, sans avoir à me lever une seule fois.

 We are looking for volunteers to host our Private Teachings in English. This position will be a part time position. Several people will fill this position, sharing hosting duties each week. This allows 2-4 people to share hosting duties each week for our private classes. **REQUIREMENTS:** • A recent computer within the last 5 years. Windows 7, 8 or 10 or MacOS 10.9 or later system; • Desktop or Laptop computer only. Zoom hosting from tablets or phones not acceptable; • The latest version of Zoom installed on the computer; • 6-8 GB of RAM or more; • 3D graphics card recommended, but not required, most newer systems have them built-in; • **TWO MONITORS required!** (Most systems have HDMI out. You can easily hook up a TV) ; • Fast internet speed **(Please test your internet speed at www.speedtest.net and report findings below);** • Minimum of at least 3-5 Megabit upload and 10 Megabit download. Anything less than this will hinder sharing full screen videos. Optimal is 10 Mbit up 50Mbit down or higher. The faster the better! • Decent headset required, preferably with noise canceling microphone. (example: Sennheiser PC-151 headset) o Built-in computer microphone is only acceptable as a backup; • KFSSI Student ID required; • Clear understandable English-speaking voice; • Technically proficient in running your computer and operating system with basic operation, troubleshooting and analytic skills; • Ability to multitask or willingness to learn: opening and sharing in zoom various file types, pictures, movies and switching between them while listening to teacher & interact as host when needed and keep track of chats.  Please e-mail to: **education@kfssi.org** WWW.KESHEFOUNDATION.ORG 29	 We are looking for volunteers to host our Private Teachings in English. This position will be a part time position. HOST WANTED	**RECHERCHE ANIMATEUR**
We are looking for volunteers to host our private English classes. This position will be a part time position. Several people will fill this position, sharing hosting duties each week. This allows 2-4 people to share hosting duties each week for our private classes.	Nous recherchons des volontaires pour animer les classes privées en English. Ce poste est à temps partiel. Plusieurs personnes occupent le poste, se partageant l'accueil chaque semaine. Cela permet à 2-4 personnes de se partager l'accueil chaque semaine pour nos classes privées.
REQUIREMENTS • A recent computer within the last 5	EXIGENCES • Un ordinateur récent de ces 5

years. Windows 7, 8 or 10 or MacOS 10.9 or later system; • Desktop or Laptop computer only. Zoom hosting from tablets or phones not acceptable; • The latest version of Zoom installed on the computer; • 6-8 gigs ram or more; • 3D graphics card recommended, but not required, most newer systems have them built-in; • **TWO MONITORS required.** (Most systems have HDMI out. You can easily hook up a TV) ; • Fast internet speed **(Please test your internet speed at www.speedtest.net and report findings below);** • Minimum of at least 3-5 Megabit upload and 10 Megabit download.
